## STRONG WARNING ON SPAIN CRISIS GIVEN BY EDEN

### POWERS ARE TO MEET OCT. 30 AT BRUSSELS

Belgium Government Issues Nine-Power Far East Conference Invitations

### Canada Is To Send Delegate

BRUSSELS (CP-Havas)—The Belgian government today formally invited nations adhering to the Nine-power Treaty guaranteeing China's territorial integrity to meet here October 30.

The conference was called at the recent sessions of the League of Nations.  
Canada is among the treaty's signatories. Prime Minister King announced at Ottawa this week the Canadian delegate would be named after the date and the place of the conference had been decided upon.

A statement issued by the Belgian Foreign Ministry said:  
"Following a request by Great Britain, made with the approval of the United States, the Belgian government has decided to propose to the states signatory to the Nine-power Convention a meeting in Brussels at the end of the month with a view to examining the situation in the Far East."

### Chinese Troops In Test Attack

SHANGHAI (AP)—Fighting progressed Friday in the Shanghai and Hongkew sectors, where Chinese were making a counter-attack to stave off the long-expected Japanese attack along the 25-mile front northwest of Shanghai.

Three Japanese civilians were killed and three wounded, a Japanese spokesman announced, during the Chinese shelling of Hongkew, the Japanese-occupied sector of the International Settlement. One of those slain was Tomokato Iwakura, correspondent of the Tokyo newspaper Hochi and younger brother of Prince Iwakura.

One shell struck the famous Astor House Hotel, now occupied

### Police Board Change Is Asked By Judge

System Unsound and Interfers With Court Work, Declares Judge Shandley

Judge H. H. Shandley of the County Court today said he had registered objections with Attorney-General Gordon Wismer against sitting on the Board of Police-Commissioners of Victoria, and he expected some action would be taken at the coming session of the Legislature to change the police commission system.

The Attorney-General, he said, had informed him and Mayor McGavin that if the City Council petitioned for a change it would be considered sympathetically.

Judge Shandley termed the present police commission plan as "unsound." He sits with the mayor and the police magistrate, Henry C. Hall.

"I expressed full agreement," Judge Shandley told the Times, "with the objections taken by Judge J. N. Ellis of Vancouver, against the present system."

"It is unfair that a judge should have to sit with the commission, listen to police plans for law enforcement and then, perhaps, interpose his judgment on the cases arising out of them."

Judge Shandley said he and the mayor had talked the whole thing over with the Attorney-General. Mr. Wismer was absent from Victoria today.

Judge Shandley, in a public statement, summed up his reasons for urging the change, as follows:  
"In practice the system is more and more interfering with the work of the courts."

### Quintuplets See Their Province's Premier

Hon. Mitchell F. Hepburn, head of the Ontario Cabinet, was observing for himself how the Dionne girls had grown when the above picture was made: In line, left to right, were Cecile, Annette, Marie, Yvonne and Emilie. The photo was taken at Callander just before the Ontario general election, but on the request of Premier Hepburn and Dr. A. R. Daffoe, it was not made public till after the polling. Today the Premier, his new cabinet sworn in and at work in Toronto, was away holidaying at an unannounced spot.

### Refunding Needed To Avoid Default, Bondholders Told

### Report Russian Troops On Move

TOKIO (AP)—The correspondent of the newspaper Nichi Nichi at Tsitsihar, in northern Manchukuo, Friday reported heavy mechanized Soviet troop movements through Ulan Bator, capital of Outer Mongolia.

The correspondent said Russia had ordered a general mobilization of the Soviet Outer Mongolian forces.

Japanese reported Thursday capture of Kewisui, capital of Suiyuan province, which would bring under Japanese control an area on the border of Outer Mongolia, the seat of Soviet Russia's Chinese influence.

### Health Offices Will Be Used

Other Government Departments to Occupy Insurance Commission Space

Headquarters of the British Columbia Health Insurance Commission on Gordon Street have been rented by the Department of Public Works, and will house various offices overflowing from the Legislative Buildings, Hon. F. M. MacPherson, the minister, said today.

The original one-year lease on the building taken by the Health Insurance Commission expired today. The Public Works Department has renewed it on a rental basis subject to three months notice by either party.

The young men's forestry training staff, the educational branch will occupy various offices in the building. The Health Insurance Commission, with its skeleton staff of a few experts will retain a portion of the office.

Mr. MacPherson said the arrangement will not entail extra cost to the government. Rentals for the building will be offset by what would have been paid to house the other departments in buildings in the business section of the city.

### Committee Urges Holders of City Issues to Support Victoria Conversion

Prompt action by the holders of at least 51 per cent of the city of Victoria's debt bonds in approving the city's refunding scheme, popularly known as the Fortin plan, is "necessary if default is to be avoided," a circular letter from the Victoria Debenture holders' committee, issued for distribution to all bondholders states.

A copy of the circular was released here today by C. S. Henley, city fiscal agent. A supply of the documents, which carry with them a consent form to be filled in by the bondholders, is expected Monday or Tuesday, and will be placed with bond brokers, trust companies and banks, where they will be available to those holding city issues.

The letter has been drafted by the debenture holders' committee set up following submissions by the city last year that it was unable to meet payment of debenture principal and interest on the existing basis.

FULL SURVEY  
The facts of the situation have been carefully considered by the committee, the letter states. With full co-operation of the city and city officials a plan was developed to realign the city's obligations. Co-operation in that work and support was secured by the committee from holders in the United States and Great Britain in drafting a scheme which would "entail the minimum of sacrifice to creditors and at the same time meet the needs of the city," the communication added.

"The committee desires to impress upon the creditors of the city of Victoria that it has satisfied itself that it is necessary to afford to the city and its ratepayers an easement in the burden of debt charges so as to enable the city to ultimately pay its debts without subjecting the city or creditors to the difficulties of default," it continued.

### France Looks To Her Navy Bases

PARIS (AP)—The navy ministry announced today that its head, Cesar Campinchi, would inspect France's naval bases and coast defence batteries on the Mediterranean. He will start next week.

French authorities have been concerned recently with what they regard as danger to French communications in the Mediterranean due to alleged Italian occupation of two of the Balearic Islands.

### Missionaries Aloof From War

Denial Made at Vatican Church Supports Japan's Course in China

VATICAN CITY (AP)—Assertions of private Vatican sources that instructions had gone to missionaries in the Far East regarding their conduct in the Sino-Japanese war were denied officially today by the Vatican semi-official news service. It said:

"The news has been distributed in America and published under sensational headlines—that the Vatican seeks to abet the fight against Communism in Japan's favor. Instructions to this effect are said to have been issued to representatives of the Holy See in the Far East."

"Both pieces of news are absolutely false and have been officially denied by Archbishop Giuseppe Pizzardo (under-secretary for ecclesiastical affairs), Monsignor Tardini (under-secretary of state) and Archbishop Costantini (secretary of the Congregation for the Propagation of the Faith.)"

### McGeer Will Speak At Banquet Tonight

Dr. H. M. Cassidy Will Also Address Community Chest Meeting

G. G. McGeer, M.P., former mayor of Vancouver and noted public speaker, will address a banquet meeting of the Community Chest in the Empress Hotel this evening.

All those who are interested in the \$72,500 drive for 23 charitable and welfare organizations in Greater Victoria are invited to the banquet. Chairmen, majors, captains and workers in the various divisions will be present.

R. H. B. Ker, joint chairman of the campaign, who will preside at the banquet, expects at least 150 persons there. Those who are unable to attend the dinner are invited to hear the speeches which will follow.

The banquet will begin at 6.30—the speeches at 7.20. Beside Mr. McGeer, Dr. H. M. Cassidy, provincial director of welfare services, will address the meeting.

Mr. McGeer is expected to take the broad view of Community Chest work and its influence on the welfare and community spirit in his address.

He will probably enlarge upon a report in The London Times that Prime Minister Neville

### Plane Plans In Britain Stolen

LONDON (AP)—Officers of Scotland Yard were searching today for plans relating to a secret aircraft 'device' missing from the offices of an aircraft company at Tolworth, just outside London.

The plans could not be found when needed by a company official and police were notified. Air Ministry officials declined to comment at present.

### State Funeral For Dr. Tolmie

Former Premier's Body to Lie in State at Buildings Tomorrow

Full state honors will be accorded the late Hon. S. F. Tolmie, former Prime Minister of British Columbia, by the provincial government at the funeral tomorrow.

Acting on instructions from Premier Pattullo in New York, Acting Premier John Hart today directed arrangements for the ceremony after receiving the compliance of the family.

The body will lie in state in the Legislative Chamber from 10.30 tomorrow morning until 2. The public will be admitted to a last view of the man who headed the British Columbia government from 1928 to 1933. He died Wednesday night.

A guard of honor will be provided and a funeral procession of dignitaries and public men will go from the buildings to Christ Church Cathedral, where services will be held.

The route of the procession will be as follows: From the northeast entrance to the driveway of the buildings, along Belleville to Douglas, along Douglas to Courtney, along Courtney to Blanshard, along Blanshard to Burdett, along Burdett to Quadra, turning left in front of the cathedral.

The procession will start from the Legislative Buildings at 2.30. The service in the cathedral will start at 3. Rt. Rev. H. E. Sexton, Bishop of Columbia, will conduct, assisted by Rev. Canon F. A. P. Chadwick.

In addition to the active pallbearers there will be a large number of honorary pallbearers. From the church the cortege will go out Quadra Street to Royal Oak Cemetery. Interment will be in the family plot, where Mrs. Tolmie was buried in 1933.

### VANCOUVER VOTE FIGURE

VANCOUVER (CP)—G. M. Phillips, registrar for Vancouver, reported today only 64.3 per cent of provincial electors here had cast votes in the British Columbia general election last June. The number of persons casting ballots was 91,221, he said.

This irregular chunk of metal is really worth its weight in gold—for it is a solid piece of gold and is valued at \$1,500. This is the nugget found near Dease Lake by Mrs. Bern Shea. It will be acquired by the provincial government as a special mineral exhibit. According to provincial records it is the largest nugget found in British Columbia in a quarter of a century and is easily the most valuable with gold at its present high price.

## Arab Guerillas Bring Terror to Jerusalem Area

Two British Policemen Killed During Skirmish in Palestine Outbreak

JERUSALEM (AP)—Guerilla bands of Arabs struck new terror in the Holy Land today and two young British policemen fell in a pre-dawn ambush on the Bethlehem Road.

Constables Norman Harrison and Austin Mallia were added to the list of dead which already included four Arabs. Twelve Jews have been injured in the last two days.

Authorities were expected to declare a nightly curfew and possibly proclaim martial law, unless order was quickly restored.

The guerilla bands apparently were functioning in a well-knit organization. The old quarters of Jerusalem were heavily patrolled by military detachments. Civilians were being searched for weapons.

### SURPRISED BY SHOTS

The two constables were shot to death in a spectacular skirmish near Bethlehem.

Before dawn authorities learned of the concentration of armed men on the main road to Bethlehem, near Solomon's Pool, and sent four carloads of police to the scene.

The officers were equipped with Lewis guns and searchlights. Rifle fire from both sides (Turn to Page 2, Col. 3)

TOKIO (AP)—Prince and Princess Chichibu arrived at Yokohama today after an eight-month tour abroad.

Members of the Imperial household met the liner. Flags decorated the harbor and buildings along the shore. Thousands of school children lined up to greet the royal pair.

The prince went to the palace here to report to his brother, Emperor Hirohito, on the journey.

The royal couple embarked on the liner Hikawa Maru in Victoria, October 2.

### Pattullo Talks With Roosevelt

B.C. Premier in New York Today After Brief Visit Yesterday at Hyde Park

NEW YORK (AP)—After paying a return courtesy call on President Roosevelt, Premier T. D. Pattullo of British Columbia today continued his "private visit" to New York and prepared to return to Canada at the weekend.

The Premier, one of the United States President's hosts on the latter's recent visit to Victoria, B.C., late Thursday made the short trip up the Hudson to Hyde Park, N.Y., for tea and an hour conversation with Mr. Roosevelt.

In a statement issued on his return here from the temporary White House on the Rooseveltian ancestral estate, Mr. Pattullo revealed that the long-talked-of Pan-American Highway that would run the length of north (Turn to Page 2, Col. 5)

## Land Sales In City Again Over Million

Figures For First Three-quarters of Year Highest Since Days of 1932

For the first time since 1932 the three-quarter year land sales totals in Victoria soared over the \$1,000,000 mark this year. A. V. Danby, assistant city assessor-collector, reported today.

Particularly heavy trading in property in April, when \$226,143 worth changed hands through sales reported with figures over the \$100,000 mark during July, August and September, sent the figure well ahead of the preceding four years.

September totals this year also stood above any since 1932. Actual sales since the beginning of January to September 30 total \$1,021,179. Last year at the same date the aggregate was \$609,194. In 1935 they were \$882,645, and

LLANDUDNO, Wales (CP)—Foreign Secretary Eden forcefully outlined Great Britain's Mediterranean policy in a speech here tonight, and reiterated belief that nonintervention is the best policy with regard to Spain.

Drawing a sharp distinction between nonintervention and indifference, he said:

"We are not indifferent to the vital British interests in the Mediterranean."

The Foreign Secretary reviewed the troubled international situation on the eve of tomorrow's momentous nonintervention meeting to discuss withdrawal of foreign volunteers from Spain.

Mr. Eden referred to what he described as "glorification of breaches of the (nonintervention) agreement. He recalled the Duke of Wellington's 100-year-old dictum that "There is no country in Europe in the affairs of which foreigners can interfere with so little advantage as in Spain."

### INTEGRITY OF SPAIN

History had shown, Mr. Eden observed, that foreign intervention in civil wars was "unenduring." He said he was convinced Great Britain's policy of nonintervention was the right one but, he added, "we are not indifferent to the maintenance of the territorial integrity of Spain. We are not indifferent to the policy of any future Spanish government."

Delivering his words with emphasis, he continued: "We are not indifferent to the complications which may arise in the Mediterranean as a result of the intervention of others in Spain. We are not indifferent to the vital British interests in the Mediterranean."

Distinction must be made, he said, between nonintervention in "purely Spanish affairs" and nonintervention where British interest are at stake.

Echoing Prime Minister Neville Chamberlain's welcome of President Roosevelt's Chicago speech for peace, Mr. Eden affirmed Britain would go to the Nine-power meeting at Brussels prepared to "co-operate heartily with those who go there to work in the spirit" of the President's declaration.

### NO PROCEDURE SPLIT

Mr. Eden then expressed regret at Italy's refusal to attend the proposed tri-power talks—(with Britain and France on volunteers to Spain).

But he threw light on Britain's willingness to let the Nonintervention (Turn to Page 2, Col. 6)

In 1934 they stood at \$638,420. A pronounced slump set in in 1933 when the figures fell from the 1932 nine-months total of \$1,416,548 to \$673,385. This year marks the first major increase since that date.

Monthly sales totals for September from 1932 to this year were: \$190,348, \$300,856, \$351,860, \$101,070, \$56,640 and \$132,185 this year.

The actual sales, while the most important of the methods by which property changed hands, did not represent the full changes in ownership. Transfers for the year to date covered \$648,950 worth of property, while wills and probates were responsible for the change of ownership of another \$369,320 worth, making a grand total, including sales, \$2,038,456, up to September 30. ## POLICE BOARD CHANGE IS ASKED BY JUDGE

(Continued from Page 1)

"The County Court judge sits as a judge in the County Judges' Criminal Court, with a very wide jurisdiction. The County Court judge also sits in cases where an appeal is taken from decisions of the police magistrate. Persons brought before the County Court judge sitting in exercise of either of the above jurisdictions, are entitled to have a decision rendered by a judge who hears and decides upon the evidence adduced before him.

"This is impossible where the County Court judge, sitting as a police commissioner, takes part in meetings formulating the policies of police action, and with the facts or charges then explained to him, forms conclusions. Having decided that the police should do certain things, with reference to certain people, or classes of people, it is not possible for any judge to forget everything he has heard and done as a police commissioner, and to consider and decide all over again as a judge. It is too much to ask.

"The same difficulties effect the work of a police magistrate when, as a commissioner, he decides on police policy, and then as a magistrate, hears cases resulting from that policy.

"The best way is to have two commissioners elected to act with the mayor. Should this not be possible of attainment, it could be provided that, at one of its first meetings in each year,

the council select, and submit to the Attorney-General not less than five and not more than 10 names, and from these names the Lieutenant-Governor-in-Council select and appoint two commissioners to act with the mayor for the ensuing year.

"The County Court judges now acting in Vancouver City and in Victoria City, have not concealed their belief that acting as a police commissioner is not in the public interests so far as a County Court judge is concerned.

Mayor Andrew McGavin said he was not ready to make any public statement on the matter. He was aware that Judge Shandley did not like the idea of sitting on the commission, but added that from what legal opinion he could gather Judge Shandley could not be forced to act against his will, although the Municipal Act specifies that the county court judge should be a member of the commission.

He indicated he probably would discuss the thing with Judge Shandley shortly.

The mayor said from his own standpoint he had always opposed the present system. He was one of the last elected police commissioners who were removed from office by an amendment to the Municipal Act put through by former Attorney-General R. H. Pooley, K.C. At that time Mr. McGavin announced he would continue to fight against the amendment which had robbed Victoria voters of their franchise.

Mr. Shandley said he thought the city should change to the elective system or some plan by which a judge or magistrate would not have to sit on the board.

Under the amendment to the Municipal Act passed in 1932, Victoria is saddled with the present three-man commission system without the right to ask for a change. Other municipalities in the province are allowed to petition for changing from the elective to the appointive system or the other way about.

by Japanese refugees, and another hit the Seventh Day Adventist Hospital on Range Road, the spokesman said, but there were no injuries.

Chinese artillery and infantry attacks were carried out against Japanese positions on the Chapel front, a Chinese spokesman declared, to determine the actual strength of Japanese troops manning that sector.

After two hours of fighting through the streets of Hongkew, Chinese obtained the required information, and were confident of holding the Chapel sector.

A tour of the battle area Friday morning showed Japanese barricades badly smashed, while Chinese were safely in possession of scores of alleyways and lanes formerly held by Japanese.

Japanese reinforcements attempted to land at Yanglinkow and other points above Liuho on the Yangtze River, the Chinese spokesman said, but suffered such casualties from Chinese land mines and machine guns they were forced to return to their ships.

## Customs, Export Figures Rising

Ottawa Report Shows Revenue and Trade Increased in Half-Year

OTTAWA (CP)—Tax revenue and export figures released here today by the National Revenue Department showed increases all along the line. Revenue was higher and trade on the increase for the six-month period ended September 30.

Total collections from customs and excise in the six months were \$159,872,478, an increase of \$31,394,092.

The income tax netted \$95,462,320, an increase of \$15,802,749. Canadian exports totaled \$567,272,780, compared with \$485,777,313 last year. The figures indicated exports would exceed the billion-dollar mark by the end of March, the 12th month of the fiscal year.

In the six-month period, customs duties totaled \$47,495,845; excise taxes, \$84,471,961; excise duties, \$27,513,617. The net increase for these taxes was \$31,394,092.

Newsprint has superseded wheat as Canada's number one export. Last year, in the six-month period, wheat stood first with a value of \$109,766,902 and newsprint second with \$52,069,099. This year, newsprint increased to \$64,553,413, while wheat slipped to \$59,879,803.

The Duke of Windsor will visit Hollywood Ex-King, Now in Germany, to Take Commercial Job, Writer Says

HOLLYWOOD, Cal. (AP)—Film colony society shined up its silver, unpacked its finest linens and began studying continental topics of conversation today.

The Duke and Duchess of Windsor were reported coming for a two weeks' visit in southern California, arriving about November 25.

The Los Angeles Times said it had learned the couple would stay three days at a San Luis Obispo County ranch reported to be the San Simeon estate of Publisher Randolph Hearst.

Arrangements had been made, The Times added, for the Duke and Duchess to be guests at a Santa Monica beach home, reported to be that of Marion Davies, screen star.

The Duke of Windsor had signed up as a representative of a commercial firm and in that capacity would start a world tour shortly after Christmas, Cornelius Vanderbilt Jr., globe-trotting writer and scion of the wealthy Vanderbilts, said in Los Angeles Thursday, according to an Associated Press dispatch.

"His work naturally will be of a propaganda nature and is in keeping with his plans for world peace," said Vanderbilt, now visiting in southern California.

"Windsor holds to the theory that undernourishment and ill-housing conditions are the cause of most internal strife. 'Wherever you find nearly intolerable living conditions you will find internal strife,' he once said to me."

Despite all the Hollywood affairs planned for the visitors, only three events remain on a long list submitted to them and returned three days ago.

The Los Angeles Times said Thursday after visiting in the Los Angeles area, the Duke and Duchess would spend two days and nights at Palm Springs, then fly to Mexico City for a three-day stay, and then fly to Palm Beach, Fla., where they would visit the Vincent Astors and others.

Boarding the Astor yacht, they would sail to the Astor castle in the Bermudas and spend Christmas there. They would leave after the holidays on the Duke's world tour for his firm, The Los Angeles Times said.

**DUKE IN COAL MINE**

DUISBURG, Germany (AP)—The Duke of Windsor spent 90 minutes today crawling around in the coal pits of the Friedrich Henrich mine on his survey of labor conditions under the Nazi regime.

Some 5,000 German miners cheered as the Duke, wearing regulation miner's overalls, went down into the pits. The Duchess remained at Essen where the special car in which they left Berlin Thursday night arrived this morning.

The Duke emerged from the pit completely black. He observed smilingly: "I hope you photographers won't shoot me before I have had a chance to clean up. I've never been so black in my life."

Officials with him said the Duke had been 1,500 feet deep and walked and crawled more than two miles underground. No visitor, they said, had ever asked so many questions or indicated such expert knowledge of the mining industry as the Duke.

## Attack On Cars Brings Protest

Britain Makes Representations to Japan on Incident Near Shanghai

LONDON (CP)—Sir Robert Craigie, British Ambassador in Tokyo, today was instructed to inform the Japanese government of the "deep distress" felt in Great Britain over the shots fired at British Embassy cars between Nanking and Shanghai on Wednesday.

Sir Robert was instructed to say the distress felt was especially great in view of the Japanese assurances following the wounding August 26 of the British Ambassador to China, Sir Hugh Knatchbull-Hugessen.

The Japanese have already expressed regret at the incident.

## PEACE MOVE IN U.S. LABOR

ATLANTIC CITY (CP)—The Committee for Industrial Organization proposed to the American Federation of Labor today that committees from both meet to consider further the possibility of peace conferences.

The C.I.O., in conference here, advised the federation convention at Denver of its decision in a telegram which suggested a preliminary meeting be held in Washington during the week of October 25.

**MAN WALKS FAR FROM HOSPITAL**

ST. CATHARINES, Ont. (CP)—Robert Larmon, farmer, was suffering from dropsy and bad tonsils, but he walked 10 miles from a hospital to his home Thursday night.

He was placed in the hospital by his doctor preparatory to an operation, but Thursday "they brought me my clothes and told me to go home," Larmon said.

Hospital Superintendent Anne Wright said hospital doctors decided an operation was not necessary for two weeks. She didn't know he had no money for bus fare and would have to walk home.

**LAND SALES IN CITY AGAIN OVER MILLION**

(Continued from Page 1)

**GOOD MONTH**

September transfers were \$59,760 and changes through wills \$67,500, which, coupled with the \$132,185 sales, boosted the monthly aggregate to \$249,445.

In the city land department the restored confidence in Victoria has been shown by land sales of a volume more than twice as great as that of the similar period last year.

Officials of the city assessor, collector's department regarded the increased sales as an index of public opinion in respect of the value of real property as an investment. To them this year's pickup indicated not only an upward trend in conditions generally, but also a renewal of citizens' appreciation of the value of property enjoying the services and improvements afforded by the corporation.

WILLIAMS LAKE, B.C. (AP)—Trial of Frank Dowling, Vancouver, on a charge of murdering E. McNeil during a "fracas" at Wells, B.C., last month, was postponed to the spring assizes by Mr. Justice A. M. Manson in the assize court here today.

McNeil was found beaten to death, on a Wells street.

## Arrest Soon For Body Theft

Ontario Police Expect to Act; Remains of H. Pope Reburied

STREETSVILLE, Ont. (CP)—An early "break" was expected by Ontario police today as investigation continued into the circumstances surrounding the stealing of the body of Hayden Pope from its day-old grave and the subsequent finding of the corpse in a ditch seven miles from this village, 20 miles northwest of Toronto.

An arrest today or tomorrow was predicted by police, who indicated they were tracing the movements of a village resident the night the body was believed stolen, last Monday. Pope, 20, died last Thursday and the body was buried Sunday. The desecrated grave was discovered on Tuesday.

Pope's 55-pound body—the young man had wasted away during his fatal illness—was found by children in a roadside ditch Wednesday. It was buried for a second time Thursday, in a self-sealing concrete and asphalt casket. There was no ceremony. A large crowd watched.

Under police study today was the scrawled note left in the casket after the grave robbery. It demanded \$100 for return of the body.

Lending interest to the gruesome case was a crudely-drawn note and map, describing the spot where the body could be found, turned over to police by a Toronto newspaper. The note was put into the paper's letter-box before the body's recovery was made public and declared it had been dumped in the ditch "as no good for ransom."

## PATTULLO TALKS WITH ROOSEVELT

(Continued from Page 1)

central and south America was among the topics they discussed. More especially, that part of their conversation was concerned with the section of the proposed highway that would wind from Alaska through the Yukon and British Columbia to the United States.

The Premier's secretary said Mr. Pattullo's schedule for today was indefinite. He stressed the visit was essentially of a private nature.

The Premier plans to entrain Saturday night for Ottawa and remain in the capital until Monday, when he will leave for home.

**VISIT APPRECIATED**

In his statement on his visit to Hyde Park, Premier Pattullo said:

"I told the President the people of British Columbia deeply appreciated and enjoyed his visit and that of Mrs. Roosevelt to Victoria. The President said the feelings were mutual.

"I also told the President the people of British Columbia were much interested in the development of Alaska. I feel a personal interest because of the fact that it adjoins not only British Columbia, but also the Yukon. I know that country well, because I went there at the time of the Klondyke stampede in 1897.

"British Columbia has a tentative agreement with the Dominion Government to include the Yukon in the boundaries of our province, which, however, is temporarily in abeyance until the report of the royal commission recently appointed to review the Canadian constitution is submitted.

"I feel sure that Alaska desires communication with the United States, and many citizens of the United States have expressed keen desire to have connection with Alaska. I look forward to the time when there will be a highway from Alaska to the most southern portion of South America. The undertaking is one of magnitude and requires careful consideration in working it out."

**FREEFOM OF ACTION**

If breaches of the nonintervention agreement should be continued, he said, "I for one should certainly not be prepared to utter criticisms of any nation which... felt compelled to resume its freedom of action."

It was noted by Mr. Eden's listeners that he had refrained either from speaking for the cabinet on this point or from stating flatly that Great Britain would "resume its freedom of action."

Britain, he added, remains "watchful" to see that British Mediterranean interests are not endangered, and he indirectly condemned Italy's declaration she would not tolerate a Bolshevik Spain.

The business of our fur coat repairing and remodeling department has tripled in the space of a year. Now that furs are getting scarce, we're faced with a problem YOU may help us solve.

Naturally, in the course of repairing and remodeling we find occasions when a segment of NEW fur simply will not match in a coat that has been somewhat worn. Thus we can not ALWAYS use NEW fur in this work... and right now we have need of slightly worn fur.

If you are contemplating a beautiful new fur coat come in and talk over our special offer. For the next five days we will accept a limited number of slightly worn fur coats as initial payment on the purchase of new fur coats.

Our confidential Budget Plan, of course, is at your disposal. It involves neither interest nor extra charges... the price being the same as for cash. Use this plan, if you wish to complete payments on your new coat. Come in and discuss with us this special opportunity.

## STRONG WARNING ON SPAIN CRISIS GIVEN BY EDEN

(Continued from Page 1)

vention Committee try to solve the problem. He explained "The French government and ourselves did not wish a breakdown to come—if it must—upon an issue which might be interpreted as one of procedure."

But Britain, he asserted, would not acquiesce in "dilatory methods." He drew a "clear distinction between 'nonintervention and indifference.'"

The foreign minister went on: "We have said more than once that we in this country have no concern with forms of governments of foreign states. That is perfectly true and remains true as long as it is a general practice—that is, so long as foreign states as a whole observe this practice. But toleration must be general, and if we have no intention to seek to make all states in Europe democracies, so others should not seek to make all states in Europe either Fascist or Communist."

If the nonintervention meeting should fail to achieve results, Mr. Eden declared, it would be "useless to conceal from ourselves the gravity of the situation" which "must cause us increasing anxiety."

**FREEFOM OF ACTION**

If breaches of the nonintervention agreement should be continued, he said, "I for one should certainly not be prepared to utter criticisms of any nation which... felt compelled to resume its freedom of action."

It was noted by Mr. Eden's listeners that he had refrained either from speaking for the cabinet on this point or from stating flatly that Great Britain would "resume its freedom of action."

Britain, he added, remains "watchful" to see that British Mediterranean interests are not endangered, and he indirectly condemned Italy's declaration she would not tolerate a Bolshevik Spain.

## Spain Will Come When the Nine-Nation Subcommittee of the London Nonintervention Committee Meets Tomorrow in an Attempt to Agree on a Plan to Remove Thousands of Foreigners Fighting in Spain

Spain will come when the nine-nation subcommittee of the London Nonintervention Committee meets tomorrow in an attempt to agree on a plan to remove thousands of foreigners fighting in Spain.

France's patience with Mussolini's delaying tactics was plainly at an end today. British officials were more reserved, but London and Paris were said to have agreed to speedy counter-measures to restore "the balance in Spain" if the subcommittee's deliberations should prove fruitless.

An indication that Great Britain was determined either to make effective the nonintervention agreement or take measures to counteract Italy's activity in Spain came from The London Times, which concluded a long editorial with the assertion:

"The open abuse of the whole policy (of nonintervention) cannot continue and a great responsibility will rest upon any power that fails to co-operate wholeheartedly for a speedy agreement."

**SPEEDY ACTION**

France and Great Britain were expected to urge a quick agreement at tomorrow's subcommittee session, but any proposal would likely have to be referred back to the home governments. Other nations participating in the subcommittee are Italy, Germany, Russia, Belgium, Portugal, Sweden, and Czechoslovakia.

Paris and London were ready to grant belligerent rights to both warring sides in Spain if progress could be made toward withdrawal of foreign soldiery, but the Soviet Union thus far has been opposed—a stand which may create complications.

The failure to agree on belligerent rights caused the breakup of the last meeting of the nonintervention delegates in August.

France and Great Britain were represented by official sources as agreed to demand an immediate "symbolic" withdrawal of some foreign troops.

### Unemployment Plan Outlined

Defence Minister Tells Nova Scotia Audience Solution Is Fixed Purpose

NORTH SYDNEY, N.S. (CP)—Defence Minister Ian MacKenzie told a public meeting here Thursday night it was the federal government's "determination and fixed purpose, with the co-operation of other governmental bodies and of private industry, to devote all our energies and resources" to solution of the unemployment problem.

The Scottish-born cabinet minister delivered part of his address in Gaelic, directed at the members of the Cape Breton audience who still preserve the tongue of their forefathers.

"This problem of unemployment is not solved," he said. "It has been lessened. We are grappling with the problems of immediate urgency; we are laying the foundations of long range policies. Our hope and our desire are that these policies may succeed. This is our greatest battle; this, if we win, shall be our greatest victory."

**TRADE REVIVAL**  
"Underlying all other efforts (toward solution of the unemployment problem) has been the government's trade revival policies, vigorously pursued with a view to restoring general prosperity in the country," Mr. MacKenzie said.

**SIR A. W. MACKINTOSH DIES**  
ABERDEEN, Scotland (CP)—Sir Ashley Watson Mackintosh, noted nerve specialist, died here Thursday, aged 69. He was an honorary physician to the King in Scotland, emeritus professor of medicine, Aberdeen University and consulting physician to the Aberdeen Royal Infirmary.

"My new son-in-law is too proud to accept gifts, so I bought myself some new furniture and I'm paying him storage for keeping it in his apartment."

### Side Glances By George Clark

**Lectures Soon In Faculty Room**  
VANCOUVER (CP)—The faculty room in the library of the University of British Columbia will become a mathematics lecture room next Monday morning.

This announcement was made by university authorities who said the move was an attempt to solve the problem of overcrowding.

**Seek New Trial In License Case**  
VANCOUVER (CP)—Twelve organizations met yesterday and discussed making of an application for a new trial for John McDonald, war veteran who was fined \$5 in police court Wednesday for soliciting funds for the Ex-servicemen's League without a license.

Garfield King, defence counsel, said there would be an appeal to a higher court on the issue of a bylaw that discriminates against the application of one organization to solicit funds.

The bylaw came into effect as a protest against racketeers," he said.

**Rowell Board Is To Sit in Edmonton**  
EDMONTON (CP)—The Rowell royal commission on Dominion-provincial relations will meet in Edmonton late in January, it was stated in a communication received Thursday by Premier Aberhart from Chief Justice N. W. Rowell of Ontario, commission chairman.

The communication said all briefs to be submitted by any organizations should be in the hands of the secretary not later than January 15.

During the special session of the Alberta Legislature a resolution was passed asking the government not to submit a brief to the commission.

**More B.C. Lumber For West Indies**  
VANCOUVER (CP)—F. W. Fraser, Canadian trade commissioner to Jamaica, says British Columbia is making "excellent headway" in extending its lumber business with the West Indies.

This advance, Mr. Fraser stated on arrival here Thursday to interview importers and exporters, was being made despite competition from the southern United States and despite the long freight haul.

Mr. Fraser said a market existed in the West Indies for more canned salmon, paper products, shingles, macaroni, box shooks, rye, whiskey and other items.

### R. U. JOHNSON, POET, PASSES

Unofficial Laureate of U.S. Dies in New York. Aged 84

NEW YORK (AP)—Robert Underwood Johnson has found the "kind night" when, as he wrote on his 80th birthday, Mother Nature crooned.

"Come, sleepy boy, companion of my ways  
When youth was yours, with me shall be your rest."

The whimsical, genial man often acclaimed as the unofficial poet laureate of the United States, died Thursday after a period of ill-health that stretched back to the winter of 1935. He was 84 and had enjoyed a long literary career.

During his many-sided life he had served as a fellow telegraph operator with Thomas A. Edison, a clerk in a book agency, a magazine editor, the literary tutor who guided Ulysses S. Grant in writing his "Personal Memoirs," and ambassador to Italy (1920-21). But he always vested his chief allegiance in the world of letters.

**HONORED BY NATIONS**  
At the time of his death he was director of the Hall of Fame at New York University. During his long association with the Century Magazine which dated from 1883 and included the editorship from 1909 to 1913, he edited the series of articles later published in four volumes and known to historians and lay readers alike as "Battles and Leaders of the Civil War." He won international recognition and decorations from a half dozen governments for his work in promoting the international copyright enacted in 1901.

Dr. Johnson was born January 12, 1853, at Washington, in a house that has been replaced by the rotunda of the House of Representatives office building. His boyhood days were spent at Centerville, Indiana.

In 1876, Dr. Johnson married Miss Katherine McMahon of Washington. She died December 31, 1924.

There are two children, Owen, widely known as an author of fiction, and Agnes, who is the wife of Frank H. Holden.

### China Plague Spread Feared

League of Nations Experts See Danger of Cholera and Black Death Waves

GENEVA (AP)—A picture of China, devastated by terrible plagues—that might spread throughout the world—as a result of the Japanese-Chinese conflict, was given Thursday to the League of Nations committee on technical co-operation with China.

League medical experts told the committee an international epidemic of cholera, pulmonary plague (the black death), typhus and various fevers was possible if the continuance of the conflict should break down China's quarantine service.

Interruption of the service would almost certainly, it was said, lead to the transmission of such diseases by ships across the seas.

Even if that peril were checked, the people of China still would face large-scale epidemics if military operations should go on during the winter.

Experts asserted cholera was spreading actively now through the movements of refugees and troops. The onset of winter, it was said, however, probably would stay any widespread outbreak this year.

### Canada's Exports Of Wood Pulp Grow

WASHINGTON (AP)—Canadian exports of wood pulp, the United States Commerce Department reported Thursday, were substantially higher for the first eight months this year than during a corresponding 1936 period.

Exports of bleached sulphite rose from 226,522 short tons to 255,728 short tons and unbleached sulphite exports increased from 74,485 tons to 111,558 tons. Exports of sulphite pulp amounted to 85,710 tons compared with 77,537 tons for a corresponding 1936 period and mechanical pulp rose from 28,525 tons to 308,345 tons.

BRUSSELS (AP)—Archduke Otto, Hapsburg pretender to the no longer existent Austrian throne, headed the Steenockerzeel Castle, fire brigade Thursday in extinguishing a gasoline tank fire which threatened a row of rowers' cottages opposite the castle. Veteran fire fighters proved Otto's amateur techniques.

### Horoscope

"The stars incline, but do not compel"

SATURDAY, OCTOBER 16, 1937.

Benefic aspects dominate the horoscope for today, according to astrology. It is a date particularly auspicious for visits and short journeys.

In the morning hours there may be lack of decision and even misjudgment in regard to important matters, but it is a favorable time for signing letters and papers that pertain to affairs of a routine character.

This is an auspicious day for winding up financial deals and for settling accounts at banks. The wise now will conserve their money.

Women should be most fortunate under this planetary government, which encourages ambitious plans and promises success in business affairs.

Weddings today are lucky. The bride may expect harmony in the home and steady progress toward comfort and prosperity.

Constructive efforts of all sorts are well directed at this time. Important public and private projects will be launched in the United States.

Engineers are subject to the best influences at this time. There will be widespread demand for their work. Building of roads for military movements will occupy attention in many parts of the world.

Actors and actresses should profit, for the planets foreshadow increased interest in stage and screen.

Persons whose birthday it is have the augury of a year of increased activity. New associations will be profitable.

Children born on this day probably will be exceedingly intellectual and fond of study. Subjects of this sign usually are industrious and able to succeed.

Noah Webster, lexicographer, was born on this day, 1756. Others who have celebrated it as a birthday include Eugene O'Neill, dramatist, 1898.

### Neutrality Debate Widens in U.S.

WASHINGTON (AP)—Prospects for a hard fight over the United States neutrality legislation in the coming session of Congress appears to have been increased by a State Department report it licensed \$81,829,527 of munitions exports in the past two years.

Some legislators are prepared to contend the neutrality law should be tightened to prevent the United States shipping any arms abroad so long as this country is at peace.

At present the law forbids such shipments only to nations which President Roosevelt proclaims to be engaged in a foreign war.

Only Spain, torn by civil warfare, is barred entirely at present from buying war implements in the United States.

### Waltz Not Dying States Straus

NEW YORK (CP)—Nearing his span of three score years and 10, composer Oscar Straus surveyed the musical trend today, and, in spite of the hurly-burly of swing-time and jazz, saw perpetual life for the waltz.

"It will never die," he said.

Lean, angular and dignified at the half way mark between 67 and 68, the man who had 30 years ago composed "The Chocolate Soldier," one of the most successful operettas ever written, is still composing Viennese waltzes. He is here to superintend the Shubert production of his "Three Waltzes."

### OIL FOR JAPAN

SAN FRANCISCO (AP)—The United States shipped more than 13,000,000 barrels of oil to Japan during the first half of this year, increasing last year's heavy shipments some 30 per cent, according to a report just issued.

### BILIOUSNESS

If you are subject to bilious attacks on the pains and discomforts of heartburn, dyspepsia, and other stomach trouble, you will be deeply interested in this case of Miss D. B. Glasco, of Mitcham.

"For three years," she writes, "I suffered from very bad bilious attacks, and I learned about Maclean's Brand Stomach Powder. Since then I have taken it regularly and have been free from these attacks."

Doctors speak highly of Maclean's Brand Stomach Powder which is used in many hospitals. It is designed to quickly neutralize the acids which are gnawing at the stomach walls, and to soothe inflamed, delicate tissue so that the stomach is helped to recover its proper, pain-free activity. Be sure to get the genuine Maclean's Brand Stomach Powder—bearing the signature, "Alfred C. Maclean, Ltd., London and New York."

In grave mood at one of the recent Nazi events held in several German cities, bemedalled Town Councillor Grimmer of Nuremberg, served as color guard for the most treasured symbol of the party's origin—the battle flag of the 1923 "putsch," which was dipped in the blood of Nazis who fell in that premature bid for power.

## Cutting Charity Overhead

WITHIN THE NEXT TWO MONTHS residents of Greater Victoria will be given the opportunity to decide whether they wish their charitable donations to be made in a way that will cut to a minimum the overhead in distribution and thus assure aid for the greatest number of unfortunates having to seek aid. Detailed information on the subject will be given at a rally meeting on October 24 which will precede the Community Chest drive next month.

Although the campaign is not in its stride yet, the objects of the Community Chest are fairly well known. It is recognized that at present there is considerable overlapping in the distribution of charity in spite of commendable efforts for co-operation made between the different organizations. Better organization will assure a greater fairness in distribution to those in need. The donors to charity will have the satisfaction of knowing that their contributions are going into the right channels through a study of the needs of the 23 welfare agencies, included in the Community Chest. It is hoped to raise the sum of \$72,500 and the basis of distribution will be as follows: Family welfare 24 per cent, general welfare 14.3 per cent, caring for sick 14.9 per cent, child cases 8 per cent, contingencies 7.5 per cent, character building 20.8 per cent, the handicapped 5.5 per cent, administration and campaign costs 5 per cent.

The manner in which public-spirited citizens of Victoria have got behind the effort augurs well for its success. There is every reason to believe the public of Victoria, who on an average basis are called upon to make the small contribution of \$1.25, will respond willingly to such a worthy appeal.

## Runciman's Will

LORD RUNCIMAN RECENTLY DIED IN England and left £2,388,453, or nearly \$12,000,000. His executors had to pay to the British government nearly half in duties and interest. With the residue, a mere \$6,000,000, his son, an able and conscientious British statesman, will have to make up his mind to struggle along.

As heir to this fortune, Viscount Runciman has refrained from comment. The reason, perhaps, was because his father included some rather extraordinary remarks in his last will and testament which are in such striking contrast, for example, with what we shall expect to see in the last will and testament, say, of Lord Nuffield—that is if he has any left by the time he has passed on to the place to which money cannot be taken.

Acknowledging Lord Runciman to have been a hard taskmaster and an honest man, "Cassandra," writing in The Daily Mirror of London, employs cynical language when he contemplates some of the contents of the wishes of the well-known shipping man. He notes that Lord Runciman charged his son and heir to:

"Advocate that one of the most deplorable national tragedies that has ever been imposed on the country's commerce by incompetent Chancellors of the Exchequer is that of the death duties and the super and extravagant income tax, the former being the worst and most ruinous of all these duties, and that abnormally high taxation is sucking the life out of enterprise, ruining thousands of worthy families, and throwing many thousands of men and women on to the streets to starve."

But "Cassandra" feels positive that the Runcimans will not be called upon to do much of the starving. Then he winds up his comments as follows: "Remember, Lord Runciman wasn't the sole architect of his fortune—it was made in co-operation with thousands of hard-working British workmen. He calls the slicing of millionaires' riches one of the most deplorable national 'tragedies.' Then 'Cassandra' exclaims: 'Tell it to South Wales! Tell it to Durham! Tell it to Clydeside!'"

## Not Invincible

FOR A GOOD MANY YEARS NOW WE have heard about the mighty naval and military machine which the Japanese have built for themselves. But one who studies the current news from China is apt to feel that so far this machine is a little less irresistible than advance reports indicated.

The Japanese have been outnumbered in China, to be sure—but they were supposed to be enormously superior in material, training and leadership, things which are of supreme importance in this age of mechanized warfare. Yet their Shanghai attack was obviously bogged down, and their drive through North China has been far from meeting its expected rapid success. Furthermore, their great superiority in the air has not won them anything like the advantages one would have supposed.

Is it going too far to suggest that the Japanese "colossus" is a good deal less sinewy and robust than everybody thought it was?

## The Mosley Circus

THE WRITER OF A LETTER TO THE Editor, having in mind the occasional circus which Fascist Mosley puts on in the East End of London, reminds us that street politics are one thing and street political professions another.

A political street procession is either a provocation or a harmless parade. A procession on the Mosley pattern is not an argument; it is purposely designed to cause trouble where trouble is easy to find.

British Fascist leader Sir Oswald Mosley is defying government orders to refrain from his imitations of Nazi provocation. He holds parades of his followers, where the Jewish population in London is predominant, in spite of official bans. More or less serious riots occur and considerable damage to heads and property is done. Taxpayers' money has to be spent in order that sufficient officers of the law may be called out to keep the inevitable disorder to the minimum. Mostly this precaution has to be taken to prevent those who disobey the official edict from coming to serious harm.

This is a peculiar system, but it is the British way. It lets the cranks blow off steam and cut all the funny capers their turbulent spirits seem to need and not be too severe with them—unless they overstep the mark. The Marble Arch end of Hyde Park is still the "old stand" for all and sundry who think they are the chosen missionaries either for the job of remaking the world or to dispense a magic formula that will grow hair on bald heads overnight. Some require the presence of a policeman or two to prevent occasional unruly members of the crowd from getting their claws into them. Be it noted, moreover, the Metropolitan Police never can be accused of making fish of one and fowl of the other. The most violent of the two extremes of political thought come under their watchful eye.

## Alcohol and Autos

THE PART THAT ALCOHOL PLAYS IN traffic fatalities is clearly shown in figures compiled by Dr. Samuel R. Gerber, coroner at Cleveland.

Up to the end of August, 217 people had been killed in traffic this year in Cuyahoga County, of which Cleveland is the centre. Having conducted post-mortem examinations in upwards of 90 per cent of these deaths, Dr. Gerber reports that more than half of the people killed were under the influence of liquor at the time.

Seventy-four per cent of those killed were pedestrians; six out of every 10 of them were intoxicated when killed. Of the drivers killed, five out of 10 were intoxicated; of the passengers killed, more than half were intoxicated.

The grim part alcohol plays in the situation could not be more clearly revealed.

## Notes

Air-conditioning may be worth all it costs. With the house sealed up to keep the air in, the neighbor's radio may be kept out.

Bernard Shaw says he is now too old to make a speech. We knew he was getting on, but we had no idea he was as old as all that.

Every person should write his solution of the world's problems. If it seems silly 10 years later, it will show how much he has grown.

## VICTORIA'S MEMORIES OF DR. TOLMIE

Bruce Hutchison in Vancouver Province. Dr. Tolmie was everybody's neighbor in Victoria, his great jovial bulk a familiar sight on the streets, on his broad acres, or at his beloved Willows race track, and it is as a neighbor and a friend that he is being mourned in every household here.

No passing in the experience of Victorians—and Dr. Tolmie's life had spanned most of the life of the capital from pre-Confederation times—brought such regret.

The parliamentary Who's Who shows that Dr. Tolmie was a Privy Councillor, twice federal Minister of Agriculture, five times a member of Parliament for Victoria, five years Premier of British Columbia. But Victoria is not thinking of those official honors today; it is thinking of a fellow-citizen who possessed far beyond the capacities of any other politician within memory the gifts of friendliness and the common touch.

Victoria remembers him as a huge red-faced boy on the farm which his father, Dr. William Fraser Tolmie carved out of the wilderness of Saanich, after he moved with the Hudson's Bay Company from Fort Vancouver in Oregon to Fort Victoria, on Vancouver Island. It remembers the day when, according to Dr. Tolmie's familiar story, he acted, as he used to say, as chaplain to a bull at the Willows Fair, and the visiting English dignitary remarked, "which is the boy, and which is the bull?"

Dr. Tolmie's last days as Premier were bedeviled by foolish advisors. The collapse of his government in the autumn of 1933 before the campaign of Premier Pattullo was expected and inevitable. But the final humiliation of a great heart was Dr. Tolmie's defeat in his own Saanich, where he had lived all his life among his country neighbors.

He was to see, then, the hollowness of public adulation. Old political friends deserted him—a man who had saved money in his official life, he was hard pressed financially. The privy councillor and ex-premier became a lonely figure walking about his farm. But his neighbors knew him as a man not as a politician, and he never lost his hold on their private affection.

Last year, when the House of Commons seat of Victoria was opened in a by-election, that hold on the electorate at large was demonstrated once more. Dr. Tolmie came to town once more from the country and carried his old constituency, to carry it for the fifth time, and to re-enter the House of Commons. It was the dearest triumph of his career, because it showed him that Victorians were still with him, and his satisfaction was shared by the whole community.

## Loose Ends

By BRUCE HUTCHISON

## LOCAL PATRIOT

BRIGADIER SUTHERLAND BROWN is not an old-timer, as we reckon time in Victoria. For example, you are still a newcomer to Victoria if you have been here a mere 20 years. After 30 years' residence, my Victorian friends are just beginning to admit that perhaps my home is here after all. But Brigadier Brown, a newcomer, has just given an example of local patriotism which marks him forever as a true Victorian. He has told a Vancouver court—under oath, mind you—that Victoria is nearer to heaven than any place on this wicked earth.

Of course, we old Victorians have always known that in a vague way, but this is the first time the thing has been put down on the court records of the country under solemn oath before the world and before posterity. It required a comparative stranger, a man who has only been here a dozen years or so, to stand up and tell the world the truth which we have always been afraid to tell.

Perhaps it is only a comparative stranger who can fully appreciate Victoria, for we old-timers are too used to it, take heaven as a matter of course, when, actually, most of us deserve to be in quite another place.

Brigadier Brown deserves the thanks of the community for reminding us how fortunate we are. But there is danger in such daring publicity. If we keep telling the world on oath how near we are to heaven, before long mortal people and civilized modern people will swarm in here from worldly regions like Vancouver, and this won't be heaven any more. It will be hell.

## AS YOU LIKE IT

ACCORDING to the newspapers, the Legislature is about to descend upon us again and apparently nothing can be done about it. They say it is going to be a dull session, with no legislation to speak of; but this is not remarkable. It is always a dull session with no legislation to speak of, and naturally it is duller now with less legislation than ever.

But do not blame the Legislature, poor thing. Blame yourself, if someone must be blamed. The Legislature, more than you can possibly realize, is your creature, your voice, your alter ego, the very essence of your mind and soul, so obedient to your whim, almost, as your right hand. And you, dear public, who demanded legislation and reform and change four years ago, when the last Legislature was born, don't want it any more.

That is why the Legislature is going to do nothing but talk a little and draw its indemnity and go home—because you don't want it to do anything else. When times were bad and everything was going to the dogs, you wanted things done. You were ready for desperate experiments. Even when the Legislature went formally on record (in a resolution now forgotten) in favor of a complete economic revolution in this country and what amounted to a state socialism, you made no moan. Even when it proposed an inflation of our monetary medium which would have ruined everybody who owned a bond or a life insurance policy, you took it all in your stride. For those were critical times, when you were ready for anything, and anything looked better than nothing.

It is amusing, in a melancholy sort of way, to realize now that we have come through all those wild years, through all those desperate solutions and impassioned oratory and dire threats and great promises without doing anything of importance at all, without changing anything and, most peculiar of all, without realizing what we once thought of doing.

Well, this is the way the public always behaves in good times. Give it a year of prosperity and it forgets all about the depression. Give it two years of boom, such as we have been enjoying (without realizing it) and the public asks only that the politicians do nothing to disturb such an admirable situation. That is what the public wants the politicians to do now—to do nothing, to make no move that might injure this state of general wellbeing, to leave good enough alone; and the politicians, ever obedient to their great master, will do exactly that.

You of the wrong-headed minority, who imagine that something must ultimately be done, that reforms must be attempted, if our present system is to survive, you must wait for the next depression. We never do anything until we have to, until it is almost too late, or just after that.

## BABIES

MORE SIGNIFICANT in the long run than the wars in Spain and China is the obscure item of news from New York which relates that a number of women in the slums of the East Side have banded together in an Anti-baby Club, agreeing to have no more children until their conditions of life have been improved.

Probably there won't be many anti-baby clubs throughout the land, but none are needed. The movement already has taken firm hold without organization or name. Millions of white women the world over are refusing to have babies for exactly the same reason, because they cannot afford to bring them up decently, and people of ordinary means are limiting their families to one or two children, because it is too expensive to have any more. It is the economic factor, as in most things, that is reducing the average family and cutting down the birth-rate throughout the white nations.

Everywhere scientists and statisticians are seeking for an explanation of the white race's decline, wondering what is going to happen if it goes on while the colored races continue to proliferate in their present wholesale fashion. They don't need to wonder further as to the cause, at least. The Anti-baby Club, formed by the poor women of the East Side, explains what is happening to the white race. Under present economic conditions, it can't afford to perpetuate itself indefinitely.

## Enthronement League, Urged As Answer To World Disorder

TO PIRACY in the Mediterranean, to mass murder in China, to disturbance everywhere, there is but one answer; the enthronement of the league, declares the League of Nations Society in Canada in a statement which it has just issued.

"The fundamental problem of our time in the field of world politics," it says, "is the transformation of the present condition of armed anarchy into a system of law and order."

On these declarations the society is basing an appeal for \$15,000 in new membership fee contributions with which "to consolidate recent gains in the programme and services of the Society, to make possible essential extensions, to advance with vigor and determination in Canada the effort to achieve peace through the maintenance of law and the development of international justice." Its co-operative effort with the National Peace Conference on behalf of world economic co-operation has, it says, already had important world-wide effects.

Brigadier-General Ross of Yorkton, Saskatchewan, president of the Dominion Command, Canadian Legion, a member of the National Finance Committee directing the appeal, and chairman of the society's committee of National Participating Organizations, is quoted as declaring that "we in the society have to show that the assumption that Canada cannot be adversely affected by any international conflagration is unsound and that on the contrary even although untouched by conflict, Canada would suffer to a very great extent." He says further: "We must set as our final objective the establishment of some form of international control which will ultimately develop into law and order among the nations of the world. For this purpose we must unhesitatingly support the principles of the League of Nations."

Sir Abe Bailey of South Africa, who has been mentioned in newspaper speculation as the donor of the Baldwin Empire Fund, is quoted as saying: "Once upon a time I feared that the League might mean the end of the British Empire. Today I believe that the League, restored to authority, may be the guarantee of the Empire's power and usefulness."

WORLD peace is described as the most complex and difficult political subject with which man is concerned. To deal with it the statement says that the interested people of Canada must develop and maintain a first rate institution for education, research and political action, employing through it the best trained and most competent persons available. This is what the Society states it has set out to become and do.

Co-operation with international organization which reaches into nearly all countries and in particular with the National Peace Conference of the United States, co-operation with Departments of Education, co-ordination of the efforts of national and other organizations concerned with world peace directly and indirectly, a national "peace parliament," national study and action projects, publications, press service, literature service representing more than 15 of the great non-commercial institutions publishing in the field of international affairs today, information service, lecture service, national and local bureaus or offices, are listed among the services and programmes of the Society.

The Society's link with the National Peace Conference is described as associating Canadians with a "great continental drive to influence United States government policy in a major way."

Thirty-six national organizations now support the society and are mobilized for action through the Society's committee of National Participating Organizations.

That the Society continues to retain public support is evidenced by a letter of good wishes which was accompanied by a contribution of \$300.

Dr. H. M. Tory, formerly president of the University of Alberta and the National Research Council of Canada, is the chairman of the National Finance Committee. Associated with him in addition to General Ross is Mr. Clifford Sifton of Toronto.

1. What is wrong with this sentence? "I have got to see him at once."
2. What is the correct pronunciation of "macadam"?
3. Which one of these words is misspelled? Prima dona, primeval, prognostic.
4. What does the word "revere" mean?
5. What is a word beginning with "int" that means "endless"?

## Solution

1. Omit got. Say, "I have to (or must) see him at once." 2. Pronounce mak-ad-am, all three a's as in at, but first and third a's unstressed, accent second syllable. 3. Prima donna. 4. To regard with respect and esteem. "We revere these men of genius." 5. Intermittent.

## FOR JOINT SERVICES

To the Editor:—I am thoroughly in accord with Alderman Archie Wills' idea of a conference of representatives from the city, Oak Bay, Esquimalt and Saanich, to discuss the possibility of having one fire department and one police department for Greater Victoria. To my mind it would mean greater efficiency without, so far as I can see, any increase in our taxes. Municipalities would still retain their individuality for other purposes of public administration, and it would tend to reduce the friction that sometimes arises, with its accompanying ill effects.

I might say I am not in favor of a Greater Victoria and doing away with the municipalities.

## ACCOMPANIST MADE ERROR

ATLANTA, Ga. (AP)—Rosa Ponselle's dramatic soprano voice rose and fell in Tschakovsky's "Adieu Forests" as a hushed concert audience listened last night.

Suddenly the Metropolitan star interrupted the song and tossed back to her pianist, Stuart Ross, a hasty "you're on the wrong key."

But Ross replied in dulcet: "No, I'm not."

Then to the tensing audience Miss Ponselle said "excuse me, please," and consulted her accompanist.

After a swift glance at the music board of the piano she announced triumphantly: "You've got the contralto copy."

The audience joined her in laughter while Ross hurried backstage to retrieve the soprano score.

When he was a bit long on the hunt, Miss Ponselle dropped her chin in hands, elbows on the piano top, crossed one foot over

the other and tapped the floor. A wave of laughter rolled over the audience.

Ross returned, resumed playing and the soprano finished her number—a la soprano.

The song over, the singer urged Ross to frontstage to take a bow, amid a vigorous ovation. As he bent at the hips, she tweaked his ear.

TORONTO (CP)—Premier Hespburn, his cabinet reconstruction completed and other matters attendant on his return to office in the October 6 Ontario general election attended to, left Toronto Thursday night for an unannounced destination on a few days' holiday.

An application for re-zoning of areas on Newport Avenue and Windsor Road near the street car terminus was referred by the Oak Bay Council yesterday afternoon to a committee of the whole for consideration. The application was made by the Bastion Finance Company Limited, owners of the property, seeking zoning of an area at the corner of Windsor Road and St. Denis Street as an apartment district, and a 250-foot frontage on Newport Avenue for retail purposes.

## REVIEWS WORK OF COMMISSION

Alan Chambers Tells of Government Committee's Efforts For Youth

The work of the Dominion Youth Employment Committee, an honorary advisory committee to the Federal Minister of Labor, was reviewed by Alan Chambers, chairman, at a meeting in the Central Junior High School yesterday evening, called by the Council of Social Agencies.

Magistrate Henry C. Hall presided.

Mr. Chambers dealt with the organization of the committee in 1936 and followed this with a statement of the work which the committee had done in the various provinces of the Dominion and the recommendations it had made to the minister for dealing with youth employment in Canada today.

The committee consisted of five members and had held 32 sessions in the Dominion and 800 interviews. The total costs of the committee's work for a period of 12 months had not yet exceeded \$10,000, and it had obtained government assistance for the work to the extent of \$2,000,000.

It was found at the end of June last year that 174,000 young men, between 16 and 25, were not gainfully occupied in the Dominion, Mr. Chambers said. It had been necessary, however, to divide the groups of unemployed and to consider first those from 21 to 27 who had been longest out of work. In this group it was estimated there were 200,000.

### TO GIVE ASSISTANCE

The committee's policy had been that it was incumbent upon the government to assist young people in finding employment, although not incumbent to have the government supply the jobs.

Mr. Chambers spoke of the difficulty in co-ordinating the problems of the nine provinces on a national basis, since it was necessary the committee should recommend a national solution for national application.

There had been many entanglements, but the committee had finally been able to complete agreements with all provinces, except Prince Edward Island, which would lend immediate relief to the problems by instituting leadership training. The committee had also recommended the adoption of forestry and placer mining training, which had successfully been carried out in British Columbia, Mr. Chambers said.

### BENEFITED MANY

This work, he said, had benefited many thousands of young people in the Dominion.

In referring to the employment service, Mr. Chambers felt the federal employment bureaus were of little use to the young people, and were ineffective in dealing with this problem. Mr. Chambers did, however, except the Victoria office in this statement.

Mr. Chambers believed his committee had accomplished much, and certainly all that was possible during its first year of existence, as far as the money voted it. He felt the committee had justified the confidence placed in it by the government and hoped the committee recommendations to the government would prevent a recurrence of conditions among youth as had existed since the beginning of depression years.

Following his address, Mr. Chambers discussed his work in a general way with the welfare representatives.

## COAST ROAD IS DISCUSSED

The West Coast Road was a topic of discussion at Ward Four Liberal Association meeting Wednesday when several speakers were heard.

C. E. Copeland, president of the association, said the cost of a proper highway from Jordan River to Port Renfrew was about \$425,000, which was out of the question just now, but a rough road that trucks could travel could be built for about \$5,000 a mile.

J. Sloman, who was a trader at Nootka from 1900 to 1905, spoke of some of his experiences on the west coast, and said the road to Port Renfrew would be a great asset. Mr. Sloman mentioned that Long Beach was only eight miles long, not 14, as often stated.

Mr. Sloman touched on the results of recent elections. The Ontario poll, he said, had again shown that the people of Canada wanted Liberalism. It was up to Liberal Party members to build up the principles left to them by such men as Pitt and Lloyd George, he said.

George Read, secretary, contributed to the discussion on the Coast Road, and Roy Fairclough gave a talk about the work of the Young Liberals.

Members stood in silent tribute to the late Capt. Archie M. Aitken, a former president of the ward association.

## OAK BAY WILL STUDY LIGHTS

Report on Immediate Needs; Action Taken on Guy Wires

A survey of street-lighting needs in Oak Bay will be made shortly. Yesterday afternoon the municipal council instructed its engineer, A. S. G. Musgrave, to prepare a report on all spots in the municipality where lights might be needed.

Councillors admitted several new lights were needed. However, they were faced with the problem of little money left for the purpose in the public works allocation and the fact that the two transformers which provide the power for Oak Bay's street-lighting system are loaded nearly to capacity already.

The council also received from Police Chief John Syme a list of telephone and electric pole guy-wires which might prove dangerous. The council will forward details of the most serious cases to the British Columbia Electric Railway Company and the British Columbia Telephone Company.

As the result of a complaint from a resident of the street, a "Blind Street" sign will be erected at the entrance to Wilnot Place, and a white plate will be placed on a tree at the end of the roadway.

## OAK BAY CALLS FIRE MEETING

Council Will Explain Money By-law and Plans to Ratepayers

The purpose and details of Oak Bay's move to form its own fire department, in connection with which a referendum on a money by-law will be put before the ratepayers on October 23, will be explained by Reeve R. R. Taylor and members of the municipal council at a public meeting to be held at the Municipal Hall at 8 next Thursday evening.

In the meanwhile the council is preparing a pamphlet outlining the scheme, for distribution to all ratepayers.

The municipal voters' list has been brought up to date in preparation for the money by-law vote, and R. F. Blandy, municipal clerk, who will act as returning officer, announced yesterday evening 3,024 are eligible to vote.

### CITY LETTER RECEIVED

At its regular meeting yesterday the council received without comment the City of Victoria's letter withdrawing its offer of protection from Duchess Street at \$17,500 a year and refusing to lower its \$1,500 monthly charge for service from the Yates Street hall.

The letter was referred to the council's fire committee for further consideration, along with a communication from the B.C. Insurance Underwriters' Association explaining the continent-wide system of rating cities and municipalities for fire insurance rates.

## SAYS INDIANS WERE ASIATIC

W. M. Halliday Tells Authors Natives Came Here in Four Great Treks

Indians probably came to North America from Asia in four great treks, according to W. M. Halliday, author of "Potlatch and Totem," who addressed members of the Victoria and Islands Branch, Canadian Authors' Association, yesterday evening.

Mr. Halliday, for 40 years Indian agent at Alert Bay, described the four linguistic branches on the coast—the Salish from Puget Sound to Cape Mudge; the Nootkas from Cape Mudge to the Skeena River; the Tsimshians, from the Skeena to the Naas River, and the Haidas of the Queen Charlotte Islands. Of the four great treks to the continent, the first wave went

east, the second south and the third and fourth stayed on the coast, the speaker said. Among the evidence which suggested the Indians were of Asiatic origin was a small purple mark at the base of the spine found on 50 per cent of Indian children, according to medical testimony. Similar markings were found on other Asiatic races.

Mrs. L. Beatrice Berton described for the authors a recent trip to the Yukon and Dawson City. Other contributors to the interesting programme were Miss Audrey St. Denys Wood, who sang two selections to her own accompaniment; Mrs. Floris Clark McLaren, who read two poems from her new book, "Frozen Fire," and Mrs. June Seymour, author of "In the Moscow Manner."

Miss M. Eugenie Perry, the president, read greetings to the branch from Leslie Gordon Barnard, new president of the association.

## Howard Scott To Visit Next Week

Howard Scott, director-in-chief of Technocracy Incorporated, will visit Victoria next week and will speak to the general public October 22, at a place to be announced later.

The committee in charge of arrangements for his visit to Victoria will hold a dinner for Mr. Scott in Spencer's dining-room on Saturday evening, October 23 at 7. The purpose of the dinner will be to give a selected group of the most functional people in this district an opportunity to hear and question Mr. Scott, who was engineer and technician for the Musee Shoals project.

Accounts for September totaling \$28,736.62 were approved by the Oak Bay Council yesterday afternoon on submission by the finance committee. The treasurer's quarterly statement was referred to a committee of the whole council for further consideration.

## CUT THIS OUT

EXCELLENT REMEDY FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, Head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. Scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle-ear—where frequently means total deafness, or else the disease may be driven down the air passages towards the lungs, which is equally as dangerous. The following formula which is used extensively is a constitutional treatment and should prove especially efficacious to sufferers.

— Extract from "You Can Cure It" by Parmit—(Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmit used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

## CHINESE GROUP ARRIVES HERE

Boys and Girls From Mission School in Vancouver See Victoria

A group of bright-eyed Chinese children, in charge of Rev. Father Sharkey and Rev. Father Roland Roberts reached Victoria this afternoon from Vancouver, and this evening, at St. Ann's Academy will present a Chinese operetta entitled "The Feast of the Little Lanterns."

The youngsters are from the St. Francis Xavier Catholic Mission School in Vancouver, and the visit to Victoria is one of the highlights in their young lives and an event to which they have been looking forward for many weeks.

In Victoria the young visitors will be billeted with members of the local branch of the Catholic Youth Organization, which is sponsoring the presentation of the operetta, which will be repeated tomorrow afternoon and evening.

All dressed up in their very best, the Chinese boys and girls had a wonderful trip across the Gulf to Victoria aboard Ss. Princess Marguerite. Many of them had not been on a ship before, so the event was novel, as well as thrilling. The priests in charge of them took them to all corners of the ship and explained navigation to them—that is, as far as they were able to answer the many questions put them.

## Japan Hopes to Keep Russia Out of China

Y. Matsuoka Tells How Army Plans to Carry Out Its Aims

Associated Press

On October 9 Yosuke Matsuoka, president of the South Manchuria Railway Company and veteran Japanese diplomat, in a signed story from Tokyo, explained Japan's aims in the war with China as a "one-for-all house-cleaning" of the troubles plaguing the East for generations. In the following interview just given at Tientsin, Japanese military headquarters in north China, he explains how those aims are to be carried out.

Matsuoka was Japan's chief delegate to the League of Nations who withdrew from the Assembly in 1932 when Japan's establishment of Manchukuo was condemned. On August 1, 1935, he became head of the railway administration and has since been intimately identified with Japan's expansion programme on the Asiatic continent.

TIENTSIN, China.—In an interview Thursday Yosuke Matsuoka, president of the South Manchuria Railway Company, disclosed Japan seeks control of the whole of China to prevent it falling prey to Soviet Russia and Communism.

The Japanese army, he said, intends to occupy Nanking, the Chinese capital. Matsuoka explained Japan's political and economic plans in north China had been delayed pending the clearing-up of the Shanghai situation, as a fundamental solution in the

north was impossible until the Chinese troops were defeated and Nanking occupied.

### GREAT CENTRES

Eighty per cent of the Chinese economic and political leadership, he said, is concentrated around Shanghai, while the coastal zone and northern provinces constitute 90 per cent of China.

"If the 10 per cent chooses to go Communist, let it," Matsuoka said. "It is better for Japan to hold the 90 per cent than lose the whole of China and permit the country to go over to the Soviet. The greatest aim of Japan is to save China from Communism and the Kuomintang (the dominant nationalist political party)."

The Japanese, he declared, had been unable to achieve their aims in China by counter-propaganda and were forced, therefore, to employ their strongest weapon, the army.

Matsuoka asserted that every nation rightfully used its strongest weapons to combat its opponents and the Japanese were unequal to others in propaganda and intrigue.

### NEW ADMINISTRATIONS

Asked if a strong anti-Kuomintang government at Nanking and an independent north China administration at Peiping were considered necessary, Matsuoka replied the question was unanswerable academically.

"Every Japanese hopes for a strong anti-Kuomintang government to replace the Nanking government," he said. "Japan should act on principles of benevolence and sacrifice in the rebuilding of China. Without this Japan would be unable to solve the Chinese problem, on which she has already spent 2,000,000,000 yen (\$600,000,000) in Manchukuo without receiving even interest in return."

Matsuoka ridiculed the argument that Japan was unable to bear the burden of financing China's development in addition to that of Manchukuo, pointing out that the rebuilding of Tokyo after the earthquake cost more than 12,000,000,000 yen (\$3,600,000,000).

### IRRIGATION DISCUSSION

"I've been dreaming for years of helping the Chinese farmer by a huge Yellow River conservancy and irrigation scheme in north China," he said. "It would cost 1,000,000,000 (\$300,000,000) and would afford a rare opportunity for humanitarianism in which the co-operation of Europe and America would be welcome."

He added that the development of north China would not divert large sums of money from the Manchukuo five-year plan, but would, on the contrary, make available natural resources to facilitate and expedite the Manchukuo plan.

Withdrawal of Japanese troops from north China, he said, would depend on peace and order. "We cannot leave the occupied regions in chaos and return home," he explained.

### HIGH PRECEPTS

Matsuoka said it would be better for the Japanese nation to perish than to fail to carry out Japan's highest precepts.

"We have followed overly much the material lessons of the west. The Japanese are now determined not to allow Communism and other influences to turn China into a weapon against Japan."

"Europeans and Americans are ignorant of the realities of the Far East; Japanese are similarly ignorant of the realities of western lands."

In this case, he said, Japan was following the example of leader-

### HAPPY VALLEY

The monthly meeting of the Luxton and Happy Valley Women's Institute was held Tuesday evening when Mrs. A. Hankin exhibited hooked rugs and also demonstrated her method.

A discussion took place regarding starting a rug making class in the future, Miss B. Hall acting as convener. Mrs. S. Hutchison and Mrs. H. Baxter were appointed delegates to the South Vancouver Island conference.

A silver tea will be held Thursday afternoon, October 21, in Luxton Hall under the auspices of the Happy Valley Parent-Teacher Association.

John Kyle of the technical department of the provincial department of education will be the guest speaker at the monthly meeting of the Happy Valley Parent-Teacher Association.

Farmers in this country make more money from poultry and eggs than from all the grains put together.

## Shower Tea Augments Funds

Children's Aid W.A.  
 Entertain At  
 Mrs. J. H. Fletcher's

Impetus was given to the cause of the Children's Aid Society by the very successful silver tea and material shower held yesterday afternoon at the home of Mr. and Mrs. J. H. Fletcher, 1721 Rockland Avenue.

Sponsored by the Women's Auxiliary to the society, the affair attracted about 200 members and friends, who left tangible evidence of their interest in the shape of a large pile of wearing apparel and materials, in addition to \$75 in cash donations. Several members of the City Council and their wives accepted the auxiliary's invitation to attend.

Mrs. Fletcher, assisted by Mrs. Donald McAdie, the auxiliary's president, received the guests in the drawing-room, which, in common with the other reception rooms had been profusely decorated with autumn flowers, artistically arranged by Mrs. R. W. Mayhew and Mrs. F. M. McGregor.

Mrs. McAdie briefly outlined the aims and objects of the auxiliary, and on behalf of the members presented Mrs. Fletcher with a beautiful corsage bouquet, at the same time thanking her for her ready and generous hospitality. Mrs. Fletcher responded briefly and welcomed the guests to her home.

**MUSICAL NUMBERS**  
 A musical programme enhanced the pleasure of the occasion. Mrs. W. H. Wilson sang "Dream Angus," an old Gaelic air, "The Brownies" (Leon) and "Bless This House," and Mrs. (Turn to Page 9, Col 4.)

## Twins Have Birthday

William Charles (Billy) and Diana Lorraine Keck are the twin children of Mr. and Mrs. Wm. Keck, 451 Dupplin Road, and grandchildren of Mr. Wm. Keck of Kentucky, U.S.A., and the late Mrs. Keck, and of Mr. and Mrs. C. Pearson, 2736 Fifth Street, Victoria. They were three years old yesterday.

## Society

Mrs. W. Traynor, who has been spending a few weeks with Mr. and Mrs. Cecil Temple at Twin Alders, Langford Lake, has returned to her home in Vancouver.

Mrs. McConnell of Banff, who spent last winter in Victoria, has returned here for the winter and is in residence at the Cathay Apartments, Douglas Street.

Mr. and Mrs. W. E. Christmas of Duncan have returned home after spending a few days here with Mrs. Christmas's brother-in-law and sister, Mr. and Mrs. Anthony Genn, Richardson Street.

Mrs. E. L. Wellsman of Vancouver returned home this afternoon after spending the last few days here as the guest of Mr. and Mrs. E. H. Cabeldu, Lincoln Street.

Mrs. Lennox Irving, Foul Bay Road, is visiting her sister, Mrs. J. H. Carswell in Vancouver. This afternoon Colonel Irving and Mrs. Irving's sister, Mrs. B. Curtis, went over to Vancouver to join her.

Jack Ramsden, who has been visiting relations and friends in England, has returned and is the guest of Mr. and Mrs. A. J. Mackie at Langford, before returning to his home in Vancouver.

In honor of Miss Gwen Hichens-Smith, Miss Beverly Pearce entertained yesterday evening at the home of her parents, Mr. and Mrs. S. S. Pearce, Cambridge Street, with three tables of bridge. The guests included Miss Gwen Hichens-Smith, and the Misses June and Sheila McAllister, Marion Wingate, Jessie Woods, Jean Taylor, Jean Jenvie, Mary White, Margaret Worth and Joan Fletcher.

Hon. W. L. Walsh and Mrs. Walsh have left Mrs. Doig's house on Lansdowne Road, which they occupied during her visit to England and left today for Harrison Hot Spring Hotel to spend a fortnight. They expect to return to Victoria early in November, and will go into residence at the Empress Hotel. Mrs. Doig expected to reach Victoria about October 24.

A farewell party was given on Tuesday evening in honor of Miss S. Woods of 1047 Lodge Avenue. The party was held at the home of Miss M. Watkins of 33 Rowland Avenue, and Miss M. Brown assisted the hostess. The evening was spent in games and dancing. Miss S. Woods was presented with a parting gift of handkerchiefs. Among the invited guests were: Misses S. O'Connor, I. Bukin, B. Bulkin, D. Hearnden, A. Plynne, H. Davis and J. Robbins, and Messrs. V. Wesley, B. Bugslag, S. Prior, Alex. Dake, B. Brown, A. Dash, B. Bowles, Ed. Brown, L. Dash and J. Drake.

## Duncan Club Names Its Officers

Mrs. D. A. Girvin Is President Of Canadian Club

Mrs. D. A. Girvin presided at the annual meeting of the Duncan branch of the Women's Canadian Club, held on Wednesday afternoon. Officers for the coming year were elected as follows: President, Mrs. D. A. Girvin; first vice-president, Mrs. Cyril Pitt; second vice-president, Mrs. T. B. Gilmour; treasurer, Mrs. B. G. Colborne; secretary, Miss Dorothy Bazzett; literary and press secretary, Mrs. O. T. Smythe; executive, Mrs. G. A. Johnson, Mrs. H. R. Gray and Mrs. A. C. Pye.

As it was the first birthday of the club, the executive entertained at tea, the committee being Mrs. Colborne, Mrs. J. B. Turnbull and Mrs. O. T. Smythe. The tables and hall presented a charming appearance, being decorated with mauve and pink Michaelmas daisies, and pink dahlias, and on the head table a three-tier birthday cake, made by Mrs. Girvin, and decorated with one candle.

Visitors from the Victoria club were present, including Mrs. Alfred Carmichael, vice-president of the B.C. Regional Council, who spoke on the formation and duties of the Regional Council, and gave the aims and objects of Canadian Clubs. She also gave a short resume of the recent convention held in Vernon. Other visitors from Victoria were: Mrs. F. G. Aldous, who sang two groups of songs, accompanied by Mrs. C. C. Warn at the piano; Mrs. Harold Campbell, president Victoria Women's Canadian Club, who brought greetings and good wishes from that body, and Mrs. J. B. Munro.

Mrs. F. S. Leather expressed the appreciation of all and moved a very hearty vote of thanks to those who so kindly assisted with the programme.

Loyal True Blue Lodge, will hold its annual banquet tonight at 7, instead of at 8, as previously announced. Right Wor. Grand Master Hopkins will be present. A good time is assured. The arrangements are in the hands of a very efficient committee.

Mackintosh was installed as outer sentinel on resignation of Sister F. Kinnaird. Sister R. F. Dalziel gave a comprehensive report on the meeting of the Local Council of Women. Reports were read from the home cooking and rummage sale.

Plans for bridge, both auction and contract, to be held in the K. of C. Hall on Wednesday evening, November 3, were completed. The conveners for this affair are Sisters J. King, M. Brown, K. Wilson, R. F. Dalziel and J. Lorimer; Sister M. Gillespie won the attendance prize, and Sister L. Smithurst the contest prize. Refreshments were served later by Sisters N. Wright, H. Beckwith, K. Wilson and L. Smithurst.

St. Columba Church will hold their silver jubilee social at the Strawberry Vale Hall this evening at 8 p.m., to which all old-timers and the present congregation and interested friends are cordially invited.

dent, Miss Florence Phillimore, in the chair. Miss Edna Middleton-favored the club with a piano-forte solo, which was followed by a lively discussion on "Personality," led by Mrs. W. P. Freeman. The guest speaker for the evening was Mrs. H. A. R. Anderson, who spoke to the girls in a very pleasing and interesting manner on psychology. A social half hour and refreshments served by the social committee brought the evening to a close. The November meeting is to be held at the home of Miss F. Donnelly, 840 Pemberton Road.

The Victoria Credit Women's Breakfast Club held its first meeting of the fall on Wednesday morning at the Dominion Hotel, with the retiring president, Miss Helena Butterfield in the chair. The annual reports were read by the retiring officers, after which the meeting was turned over to the new president, Miss Kay Knapton. The other newly-appointed officers are: Miss Anita Davies, vice-president; Miss Betty Cowdery, secretary; Miss Betty Hamilton, treasurer; Miss Winnie Knapton, membership; Miss Isobel Gibson, publicity, and Miss Gertrude Houghton, employment. Miss Jean Drysdale and Miss Grace Revercomb, delegates to the National Credit Convention held at Spokane, Washington in June, gave summaries of the business transacted there, which proved very interesting. The next meeting will be held at the Dominion Hotel, November 10, at 7 a.m.

The members of the Evening Auxiliary of Metropolitan W.M.S. entertained the auxiliary of First United Church on Wednesday

evening. The Sunday School room was decorated with autumn flowers. Miss Louise Noble, president of the Metropolitan group, welcomed the guests. Miss Gladys Beal led the worship service, the theme being "Thanksgiving," and Miss Noble sang "With Verdure Clad," by Haydn. The study book was taken up by Miss Joyce, who was introduced by Miss McKillean, president of the First

United group. Rev. W. H. Gibson gave an interesting talk on the work done by the medical missionaries to the Indians of British Columbia. Miss Effie Gilliland directed a contest: Mrs. W. G. Wilson and Mrs. A. E. Whitehouse poured tea, and after a social interlude the evening came to a close with "Blest Be the Tie That Binds," and a prayer by Rev. E. A. Whitehouse.

## MOM SAYS IT MAKES THE NICEST FUDGE

## AND MOM IS RIGHT!

For a panful of rich, smooth-textured fudge, creamy-soft and delightfully flavored, Rogers' Golden Syrup is the perfect ingredient.

Children have a natural, healthy craving for sweet things. Their active bodies require a quick fuel-food to supply them with that boundless energy that will carry them to the top in school and make them keen for play. You can give them all the candy and sweet stuff they need if you give them fudge and Rogers' Golden Syrup, the pure Golden Syrup that is as good for them as it is delicious. It is satisfying, invigorating, and high in food value.

### CALLING ALL DOGS

By ALBERT PAYSON TERHUNE

The Mother Instinct

Often a human mother will risk her life for her young. Almost always a mother-dog will risk hers for the squirming baby pups she has just brought into the world. This mother instinct

in dogs is something I have studied long and closely. I have seen a frisky and feather-brained young female dog settle down overnight into an ideal mother, caring for her newborn young with a fierce zeal and with the skill of a veteran dam. I have seen hitherto trustworthy house-dogs steal brazenly from kitchen or pantry, to get food for their babies. They knew they were breaking the law. But what was the law, compared with their offspring's possible needs? They risked punishment, gladly. I have seen dogs, which always had been in mortal terror of thunderstorms, gather their pups protectively under their own furry bodies, and snarl fearlessly defiance at the blinding stabs of lightning and the earth-shaking boom of thunder. "Perfect love casteth out fear."

On the other hand, more than once, I have seen a dog-mother shove to one side a sickly or defective newborn pup, discarding it while she lavished eager attentions on its stronger sisters and brothers. That last is something I can't explain. Can You? (Copyright, 1937, McNaught, Syndicate)

### COLWOOD

Plans were made at the monthly meeting of Women's Auxiliary to St. John's Church, to hold their winter sale of work on Wednesday, November 24. The monthly meeting of the Colwood Women's Institute will be held Tuesday afternoon, October 19, at 2.30.

### SOOKE

**SOOKE**—A general meeting of Sooke Community Association was held in Sooke Hall Tuesday evening, H. Goodrich presiding. Arrangements were made for heating, which will be installed in the hall immediately and the work of finishing the outside will start at once. It was also decided that the painting of the hall would be done this fall.

November 17 is the date set for the all Vancouver Island frolic under the auspices of the Sooke Community Association.

A general meeting of the Badminton Club will be held in the Sooke Hall on Friday evening, October 15.

### Modern Etiquette

By ROBERTA LEE

1. Should a guest refuse food offered him?  
2. Should butter be put on potatoes with a knife?  
3. May a person drinking from a bouillon cup hold both handles?  
4. When a knife is not being used may the handle rest on the table?

5. May a person say "No" in refusing a second serving offered by a servant?  
What would you do if—  
You are a hostess and a guest ruins a pair of hose on one of your chairs:  
(a) Say that you are sorry, and afterwards set that the rough place on the chair is fixed?  
(b) Buy the guest a new pair of hose?  
(c) Let the guest know how sorry you are by repeated reference to the incident?

### ANSWERS

1. It is more courteous to accept a small portion the first time it is offered.  
2. No, with a fork.  
3. Yes, or he may hold the cup by one handle.  
4. No.  
5. "No thank you" is the courteous way to refuse.

## Thinness Seen In Stock Market

W. W. Aldrich Says Price Swings in U.S. Caused By Government Policies

ROCHESTER, N.Y. (AP)—The present drastic slump in share prices has revealed "an impairment of efficiency" of the stock market which calls for "prompt correction," in the opinion of Winthrop W. Aldrich, New York banker.

In a speech before the Rochester Chamber of Commerce Thursday, Mr. Aldrich, chairman of the Chase National Bank, said the "active thinness" of the market in the United States was largely the cause of "extraordinarily drastic and severe" price movements on even a moderate

amount of selling. He attributed the thinness to "the cumulative effect of a variety of recent government policies," many of which, he contended, should be modified.

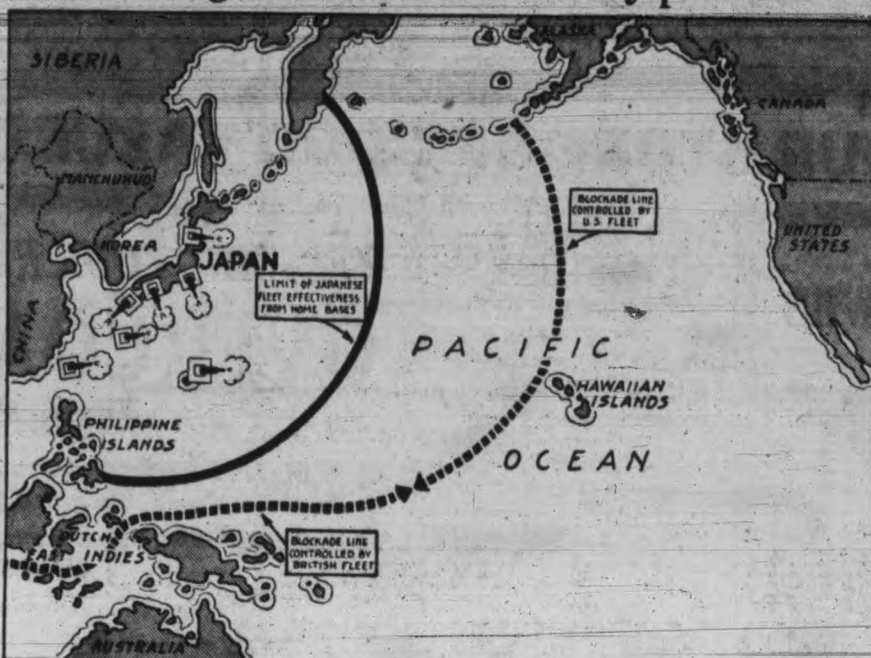

Among them he enumerated the capital gains tax, high and rigid margin requirements, the rule requiring officers of corporations and other "insiders" to hold stock of their own concerns for at least six months before taking a profit and a number of regulations of the Securities Exchange Commission affecting dealers in securities.

## Church Bids On Site at Nanaimo

NANAIMO — The city is considering an offer from the Presbyterian Church here of \$1,000 for the site of the old Wallace Street Methodist Church, at the corner of Wallace and Franklin Streets. The property had reverted to the city and last January was suggested as a possible site for a new city hall.

**BUILDING AT DUNCAN** DUNCAN—R. A. Thorpe has purchased a lot on Kenneth Street and has taken out a building permit for a \$1,500 store.

## Long-distance Blockade of Japan

How naval experts propose Britain and United States in conjunction could enforce a long-distance blockade against Japan which would shut off the island empire from practically all commerce with the rest of the world. The map is from The New York Daily News.

## Council Honors Tolmie Memory

Tribute to the memory of the late Hon. S. F. Tolmie, M.P., was expressed in a vote of sympathy recorded by the Oak Bay Council yesterday afternoon.

"He devoted all his life to the public interest. We are sorry there are not more public-spir-

ited men of his calibre. His passing will be regretted, for his ability as a public servant, his geniality, his sterling character and his devotion to duty," said Reeve R. R. Taylor on behalf of the council.

Purchase of engineering instruments at a cost of \$203 from A. S. G. Musgrave, municipal engineer, was voted by the Oak Bay Council yesterday.

## ROYAL OAK

The monthly meeting of the Royal Oak Women's Institute was held Thursday afternoon in the Community Hall, with Miss K. Oldfield in the chair. A moment of silence was observed in respect for the late Dr. S. F. Tolmie. Mrs. H. H. Reed, with Mrs. L. H. MacQueen as an alternate, was elected delegate to the South Vancouver Island district board conference. Student dancing classes will commence Monday, October 18, at 8, with Mrs. J. B. Hudson as instructor. A jam shower for the Queen Alexandra Solarium will be held at the next meeting, November 18. A masquerade old-time dance will be held Friday, October 22, in the Community Hall. Final arrangements were made for the annual bazaar with military 500 card party, Wednesday, November 10.

Work will start immediately on macadam surfacing of an 800-foot section of Lincoln Road, Oak Bay, to a width of 20 feet under a local improvement by-law, the municipal council decided yesterday afternoon on the expiry of the one-month period during which objections might have been entered. The portion affected is between Estevan Avenue and the Uplands.

## Music Awards Are Presented

Students Receive Certificates For Associated Board Examinations

Certificates emblematic of successes in recent examinations of the Associated Board of the Royal Schools of Music, London, were presented to Victoria students at an enjoyable ceremony in the Empress Hotel yesterday evening. Approximately 200 pupils received awards.

The second function of its kind here, the presentation was made more attractive with selections by certain of the students as well as addresses by music leaders.

Edna Wilson, Vancouver representative of the Associated Board, assisted Dr. Richard Felton, honorary local representative, in making the presentations in which A. J. D. Wilson and Captain Wilfrid Ord also took part.

In the main address of the evening, Dr. Felton spoke of the valuable work of the Associated Board in fostering music study in Canada.

He referred to the value of choral work in schools, remarking on the unfortunate gap in junior high and high schools during which the subject was given little prominence.

## CHORAL WORK VALUABLE

Dr. Felton emphasized the value of choral work, pointing to its advantages not only in assisting the student of music in his work, but also in character development.

The certificates were presented in the following order: Twenty-seven preliminary, 23 Grade 1 primary, 23 Grade 2 elementary, 14 Grade 3, five Grade 4 (grammar), 27 Grade 6, nine Grade 2 (grammar), 15 Grade 5, two Grade 6, 14 Grade 4 (grammar), five Grade 6, eight Grade 7, eight Grade 8, one Harmony Grade 1 distinction and one L.R.S.M.

Musical selections were presented by Viola Adelaide Wain, Muriel Sprague, Mary Louise McBain, Gwen W. Woolcock, Rosemary Farrow, William Bernard Hick, Robin I. Wood, Winifred Denise Mara, Jean Routley, Doris A. MacDonald, Muriel Patterson, Maryann Peterson and Marjorie Elaine Willard.

## STORIES IN STAMPS

MARKING MARQUETTE'S 300TH ANNIVERSARY

Destined to blaze deep trails in American history was the scion of a distinguished French family, Pere Jacques Marquette, born just 300 years ago in Laon, France.

When scarcely 30, he was sent to Canada to preach the gospel to the red man. Marquette first took up his work at Sault Ste. Marie, laboring among the Ottawas. He built a simple church in this busy trading post and began the accumulation of geographic information at once of rare value to France. He was both missionary and pioneer.

In 1672 he was joined by Joliet, experienced explorer, sent out by the government, and the two of them, accompanied by five French canoeists, started southward on the voyage that was to make them famous. The Mississippi river was an unknown stream when that trek began. No one knew where it flowed; the perils it entailed. When they tolled back northward some two years later, they had gleaned the Mississippi's first great secrets.

But already Father Marquette had sacrificed himself to the journey. Two hundred miles from St. Ignace and his home mission, he died and was laid to rest in the wilderness near what is now Ludington, Mich., on May 18, 1675. The Trans-Mississippi United States issue of 1898 portrays Marquette.

Three offers for a lot in the business district of Oak Bay Avenue between Monterey Avenue and Hampshire Road were received by the Oak Bay Council yesterday afternoon. Decision on the offers was referred to a committee of the whole.

## Two First Division Soccer Games Tomorrow

### THISTLES MAKE DEBUT AGAINST VICTORIA CITY

#### Sports Mirror

By PETE SALLAWAY

MUZZ PATRICK'S career as a six-day bicycle rider came to an abrupt end on Wednesday evening when the big Victoria boy was forced out of the current Montreal race through injuries. Patrick, who was partnered with Gerard Debaets, veteran Belgian competitor, never was near the top and at the time of his forced retirement was a mile back of the leaders and trailing by nearly 200 points.

Muzz's bike career has no doubt ended where it started. It is not likely he will get into another race. Although he was only in the Montreal grind for four days he suffered a bad cut over one eye and other minor injuries. It is a pretty safe bet Patrick went into the ride to nowhere more as a lark than anything else. While he was in Victoria during the summer Muzz got in a lot of riding along with the two Pedens, Doug and Torchy, and guess he figured it would be just another experience for him to ride in a pro affair. But Patrick will not take any more chances of ruining his hockey or boxing career as a member of the wheel brigade.

As expected, the New Westminster Salmonbellies won the Canadian box lacrosse championship in three straight games. Their third engagement with the Orillia Terriers Wednesday night was a walkaway affair, the Fishmen having apparently broken the spirit of the eastern titleholders in the first two exhibitions. One thing is certain, having brought the title west again for the first time in 10 years the British Columbia teams are going to make it plenty tough for the east to regain that Mann Cup.

Tomorrow night the 1937 edition of the Dominos will make its season debut at the High School in the first of the series of winter exhibitions against Seattle squads. The opposition for the opening engagement will be a classy outfit playing under the name of Dan's Market.

The line-up of the visitors reads like a collection of former college stars. Names like Jack Hanover, Ed Loverich and Hunter McPhee bring back memories of great game machines at the University of Washington and Washington State College. In addition the Seattleites have such other well-known ball-handlers as Hal Lee, Pete Antovich and Bob Egge. It is an aggregation of stars and one that should offer a colorful exhibition.

Main feature of the opening night as far as the Dominos are concerned will be to see how their new star Willie Rogin works into the line-up. Coming to Victoria from Windsor, where he built up a great reputation, Rogin is a valuable addition to the local club and partnered with Chuck Chapman on the defence is expected to prove an important cog in the machine. Rogin should also add much strength to the offensive power of the Dominos. He is a deadly shot, packs plenty of weight and lots of stamina.

With Hank Rowe, who should be better than ever this season, Art Chapman, Austin Webster, Carl Coates, Stan Jackson, Best Davies and Roy Taylor all set for action, the local club will have a strong aggregation. They will have a great starting five available and in addition the secondary line will pack tons of punch.

The Dominos have provided Victoria sports fans with much entertainment in previous winters and no doubt the latest team will offer up plenty of competition to the many out-of-town clubs which will invade this city between now and the end of March.

Meet at Athletic Park; Wests and Garrison to Fight For League Lead

Kick-offs at 3

Tomorrow will witness a complete first division soccer programme, with two matches scheduled. At the Athletic Park the Saanich Thistles will make their first start of the season against Victoria City, while at Heywood Avenue the Victoria West will engage the Garrison. Tom Robb and Dave Swan will be the referees. Both games will start at 3. The clubs officially ushered in the season last week-end, when the Garrison turned back Esquimalt 8 to 2 and the Wests won from the City by default.

Tomorrow's match between the Wests and Garrison will see the league leadership at stake. Each club will be after its second straight victory and first place in the league standing.

Two matches will be played tomorrow afternoon in the Intermediate League. At a meeting last night the entry of the Bapco eleven was accepted, bringing the teams in the loop up to six.

The draw for tomorrow follows:

Bapco vs. Navy at Heywood Avenue. Referee, Edgar Borde. Coopers vs. Young Liberals at Victoria West Park. Referee, Cockrill.

On Sunday James Island will play Cameron's at James Island. All matches will start at 2.30. The league decided to affiliate with the British Columbia Football Commission. Each team will be allowed to substitute three times during games this season. Fred Collier and Bill Ossington were added to the executive committee. Charlie Jones, Fred Bosson, Ralph Alcock and Fred Oliver are the other members.

Teams for tomorrow follow: Saanich Thistles—Joe Crowe, Leggett, Carmichael, Williams, G. Speller, Cosier, E. Speller, Hope, Wallace, English, McCaig, McMillan and Alexander.

Victoria City—Rowe, Moody, Roper, Payne, Glancy, Brandon, Peers, Youson, Robbins, C. Robbins, Moore and Robbins.

Victoria West—T. Restell, I. Sweeney, R. Bell, H. Sage, R. Barnes, C. Restell, G. Bell, R. O'Keefe, J. O'Keefe, J. Watt, N. Morgan, G. Barnes and E. Patterson.

### World Baseball Champions For Second Straight Year

NEW YORK YANKEES

who defeated their fellow townsmen, the Giants, in the recent world baseball series four games to one. It was the second successive season the American League champions whipped the New York representatives from the National circuit. Those in the above picture are: First row, left to right, Pat Malone, pitcher; Joe Glenn, catcher; Fred Schulte, coach; Art Fletcher, coach; Joe McCarthy, manager; Earl Combs, coach; Jake Powell, outfielder; Tony Lazzeri, second baseman; Earl Painter, trainer; second row, Charley Ruffing, pitcher; Joe DiMaggio, outfielder; Bump Hadley, Ivy Andrews, Frank Makosky, and Johnny Murphy, pitchers; Red Rolfe, third baseman; Monte Pearson, pitcher; Lou Gehrig, first baseman; Lefty Gomez, Joe Vance, pitchers; third row, George Selkirk, outfielder; Frank Crossetti, shortstop; Arndt Jorgens, catcher; Kemp Wicker, pitcher; Myril Hoag, outfielder; Paul Schreiber, Don Heffner, and Jack Saltzgraver, utility; Tom Henrich, outfielder, and Bill Dickey, catcher; seated in front is Tim Sullivan, team mascot.

### GULDAHL AND BURKE LEAD

Latter Sets Blistering Pace As Pair Show Way in Oklahoma Golf Play

OKLAHOMA CITY—Sixteen pros, paced by Ralph Guldahl and Billy Burke, faced double duty today in the second and third rounds of Oklahoma City's first annual \$5,000 four-ball golf tournament.

Guldahl, United States open champion from Chicago, and Burke of White Sulphur Springs, W. Va., led the field of eight teams by a scant point, thanks to Billy's sensational 67.

Despite a sharp wind and a soggy course, Burke sizzled through 18 holes in four under par to enable him and Guldahl to beat Ed Dudley of Philadelphia and Jimmy Hines of New York, 3 up.

Only a point behind the Guldahl-Burke combination are the sharpshooters tied off today were Harry Cooper, Canadian open titlist, and Horton Smith, who stepped Ky Lafoon and Dick Metz, 2 up, in all-Chicago match.

### RAIN MAKES EYSTON QUIT

British Automobile Driver Gives Up Record Attempt After 15 1/2 Hours

BONNEVILLE SALT FLATS, Utah—Capt. George E. Eyston, after driving for half an hour through a pelting rainstorm, halted at 4.39 p.m. (P.S.T.) yesterday his attempt at a world speed record for 24 hours of travel.

The 15 1/2-hour run, starting early yesterday, brought to the British racer's "Speed of the Winds" but one new record—163.59 miles an hour for 2,000-kilometer distance. Eyston missed by a narrow margin one of the major records he sought, for the 12-hour distance.

"I let you down men," Eyston shouted as he finally drove off the salt course, dangerously slick under two inches of water.

"But we'll have a go at it again soon."

Jimmy Dykes, who worked wonders for Chicago White Sox, and Mickey Cochrane of the Tigers, whose playing days were ended by a "beanball" last May, were recorded with new two-year contracts calling for pay boosts.

### Mrs. Aldersey Is Elected Captain

DUNCAN The women members of the Cowichan Golf Club held their annual meeting at the clubhouse, Duncan, this week. The election of officers resulted as follows: Captain, Mrs. F. G. Aldersey; vice-captain, Miss G. M. Beaver; secretary, Mrs. A. H. Peterson; committee, Mrs. A. W. Prest, Mrs. C. C. Wright, Mrs. A. S. Irvine, Mrs. R. S. Ross and Miss J. Duncan.

### Few Managerial Changes Listed

Reported Plans of Ball Clubs to Release Bosses Prove Groundless

NEW YORK—The Wolves are going hungry after all.

All those scalps of major baseball league managers that were promised to the "howlers" a few weeks back are going to stay plastered on the heads to which they belong.

An Associated Press survey today showed that the only pilots likely to get the "heav-o" as a result of the 1937 campaign are the two who received their walking papers before the season ended—Chuck Dressen of Cincinnati Reds and Rogers Hornsby of St. Louis Browns.

At this writing, even Steve O'Neil, for whose neck the wolves were roaring from start to finish of the season, appears safe. President Alva Bradley of Cleveland Indians announced O'Neil will be back bossing the tribe next season, "unless someone can convince me we'll better ourselves with someone else."

Less than a month ago, it was "six, two and even" that half of the 16 leaders in the big show would be among the unemployed by winter. Frankie Frisch of the Cardinals, Pie Traynor of the Pirates, O'Neil, Jimmy Wilson of the Phillies, Buddy Harris of the Senators, and Joe Cronin of the Red Sox, all were mentioned as sitting on shaky perches. Now, however, it's all changed.

### STREET MAY TAKE BROWNS

The Bees lost their mastermind when Bill McKeechle took the Cincinnati job for \$25,000, plus a bonus for each year of a two-year contract. This left the Bees and the Browns the only two outfits not set for next season, and the Browns now are about ready to nominate Gabby Street to succeed Hornsby.

Burleigh Grimes, at Brooklyn, is getting a raise, although the Daffy Dodgers were a poor sixth during the season. Frisch, too, will find his pay cheque larger, under his new one-year contract, despite the Cards' fourth-place finish.

Kirchlin defeated W. J. Rennie and W. A. Evans, 50 to 49. R. Mackenzie and H. A. Bates entered the finals by defeating C. Groth and E. P. Kirchlin, 50 to 43. In the final against K. Kirkham and F. Brice, R. Mackenzie and H. A. Bates had the edge and won by a score of 50 to 43.

### HORSESHOE PITCHING

The wind-up of the horseshoe pitching contests for the season resulted in very close scores between the players. H. Kirkham, partnered with F. Brice, defeated A. N. Murray and A. Pinkerton, 50 to 30. C. Groth and E. P.

### MASTER TIME IN VICTORY

Heads Field in Mile Feature Race at Bay Meadows

SAN MATEO, Cal.—Showing liking for the muddy track, Master Time galloped off with top money yesterday in the one-mile feature race at Bay Meadows.

The five-year-old gelding, ridden by Johnny Adams, leading jockey of the country, was clocked in 1.41 3/5. It made 203 wins so far this year for Adams. Early Hour ran second, and Leonie, third. Chiana was a late scratch.

### Ruggers to See Action Tomorrow

#### Joe DiMaggio To Play Basketball

NEW YORK—Joe DiMaggio, star of the world champion New York Yankees, is including even basketball in his winter sideline activity.

Giuseppe the great yesterday signed a contract by which he'll receive \$1,000 for playing at least half of the opening game for the New York Jewels when they meet the New York Whirlwinds in their seasonal pro debut at Arcadia Hall, Brooklyn, Sunday night.

"Basketball," explained Giuseppe, "is one of my favorite sports. I'm a forward."

### GERMANS HOLD FIRST PLACE

Kilian and Vopel Continue to Lead Field in Montreal Bike Race

MONTREAL—Gustave Kilian and Heinz Vopel of Germany, piling up sprint points as they whirled, continued to lead Montreal's international six-day bicycle race today as the event entered its second-last day. Still tied with the Germans in mileage, though, were Emile Ignat and Emile Diot of France.

Other leading contenders fell off the pace a little. The newly-formed combination of Debaets and Baggio pulled up to within four laps of the first pairs but still was in seventh place.

#### Standings follow:

### PATRICK TO MEET NEWMAN

Wrestling Card For Tomorrow Night Is Completed

Pat Patrick, husky Irishman from the eastern states, will make his Victoria wrestling debut tomorrow night at the Tillamook gym when he matches holds with Louis Newman, local heavyweight in the special event. Patrick has a colorful record, having been a pugilist for many years. He weighs just over 200 pounds.

Five new heavyweights will be seen in action on tomorrow's card. Earlier in the week promoter Fred Richardson signed Kimon Kudo, Japanese, and Scotty Dawkins for the mixed bout. Ranjit Singh, colorful Hindu, will face Johnny Marrs in the other half of the double bill.

The first bout will start at 8.45.

#### COLWOOD GOLF

Mrs. H. F. Crowe finished with a card of 93-15-78 to lead A class in the monthly medal competition held yesterday at the Colwood Golf Club. Mrs. George Quincey headed B division with a score of 99-19-80.

COLOMBO, Ceylon—Sinhalese women are the happiest on earth, says Miss K. Tennekoon, social worker in Kandy, on account of their self-sacrifice.

### Badminton Club Names Officers

Mrs. S. White was re-elected president of the Christ Church Badminton Club at the annual meeting held last night. Other officers follow: Vice-president, Stanley Thorne; secretary-treasurer, P. J. Balagno; re-elected, executive, Betty Thorne, Kay Nesbitt, W. Cameron-Murray and W. Allen.

The club started season play on October 7.

#### CARNERA BANKRUPT

LONDON—Primo Carnera, former world heavyweight boxing champion trying a comeback in England, filed a petition of bankruptcy yesterday when confronted with a bill for £124 (£615) for unpaid income tax.

#### College Opposes Bays and Garrison Meets Wanderers; Games at Macdonald Park

The seasonal battle for city senior rugby supremacy will begin tomorrow at Macdonald Park.

Fresh from their match with the West Vancouver Barbarians last Monday, the Victoria College fifteen will be facing tougher opposition tomorrow afternoon when they take the field against Bert Buller's strong J.B.A.A. squad on the upper pitch.

On the lower field the Garrison is scheduled to play the Oak Bay Wanderers.

While the latter-mentioned fixture should be a fast and furious one to a degree, although little is known about either 15, the pick of the day is expected to be the College-Bays game.

Buller has been working his boys out regularly during the last two weeks, and reports them in excellent shape. The Bays, as they had last year, have a smart fast three-quarter line with three former rep players on the string. The pack is built around a similar nucleus, and while in the raw at present, is reported shaping into a formidable enough machine.

A fair idea of the potentialities of the blue and gold squad was gained on Monday, and except for the odd last-minute change in line-up, will be virtually the same squad that played that day.

Bill Noel has been moved back to the safety line. Three-quarters will include Colvin, Lucas, Cox, White and Osler, with Symons scrum half. The following are expected to comprise the pack: Brodigan, MacLachlan, McKay, Williams, Macdonald, Whittaker, Miller and Hudson. Spares will be Adams and Holt.

While the Bays worked out favorably against the Scottish B squad on Saturday, their real test will come in tomorrow's game. Jimmy Corcoran, former V.A.C. Canadian rugby star, will play fullback. The passing attack is composed of Bridge, Brown, Smith, Ferguson and Halkett. The last-mentioned two work well together, and are both fast and clever backfield men.

Wally Stipe of rep fans will ease into his old position at scrum half while the forwards will probably include Mair, Bray, Croft, Collier, Ruttan, Pettigrew, C. Doheny, E. Doheny and DeZell.

Wanderers and Garrison are a reputedly hard-driving bunch, and their match should be a bitter one from the start.

Bill Wharton, Garrison coach, expects to give the Oak Bay squad a stiff battle even with two of his regulars absent. His line-up will include Loveless, McCorkle, Rippingale, Hatch, Anderson, Martin, Richardson, Hall, Wood, Eastick, Cockerell, Croft, Venus, Patterson and York.

Both matches will start at 3. Canadian Scottish and Garrison senior B teams will play a practice match tomorrow afternoon at Work Point Barracks at 3. Members of the Scottish are asked to meet at the Armories at 2.15.

# ENGLISH SOCCER LEAD AT STAKE

Charlton Athletic and Brentford Meet in Blue Ribbon Match Tomorrow

LONDON—Joint leaders in the English Football League, Charlton Athletic and Brentford, meet on the later's ground at Griffin Park tomorrow, to decide which team will go to the top of the pack.

While the teams have obtained 14 points in the campaign to date, Charlton takes precedence with a superior goal average and, in addition has a game in hand. Both squads will be at full length and a record crowd is expected. Already all seats in the reserved grandstand have been sold.

In the event of the London rivals playing a drawn game, three teams have an opportunity of pulling up on level terms, Chelsea, West Bromwich Albion and Leeds United are bracketed with 13 points. The Pensioners have a hard task at Blackpool, West Bromwich goes to Leicester, while Leeds United will have to be in top form if it is to avenge a 7 to 1 defeat inflicted at Everton last year.

## ARSENAL SHOULD WIN

Arsenal should have little difficulty in disposing of the tail-end Portsmouth squad at High-bury and Manchester City, league champion, will be at full strength with the return of Tilson, its international centre forward. The Mancunians have a home match at Maine Road against the strong Stoke City team.

Aston Villa is opening its money bags again. In 1935 the villans paid \$175,000 for seven players in an unsuccessful attempt to remain in the major division and the latest move to strengthen their team proved costly, although the amount paid for G.

Clayton, Wolverhampton Wanderers' centre forward, this week has not been revealed. Clayton, the Wolves' chief scorer last season, will play for Villa against Newcastle United.

Wolverhampton has received a record sum in transfer fees. From May, 1936, to May this year the Midlands took in about \$256,000 and the amount will be considerably swelled as the result of the Clayton switch.

Coventry City, unbeaten second division leader, goes to Swansea at the week-end. Last year the Welshmen won the corresponding game, 2 to 0, and will go all out to deprive the City of its brilliant record.

In the southern section, third division, Notts County is likely to retain a one-point margin at the top by defeating Bourne-mouth. Gateshead, similarly placed in the northern loop, may find it hard to get goals against the visiting Tranmere Rovers.

## SCOTTISH LEAGUE

GLASGOW—Their smashing 6 to 0 victory over Dundee last week has put Glasgow Rangers out in front in the Scottish Football League race and marked them as the team to beat for the championship. After a slow start, the light blues are playing in the form that carried them to 23 league titles.

Dundee and Motherwell stand as Rangers' closest rivals for the leadership and have home games at the week-end, while the Glasgow players are away to Partick Thistle. The Forfarshire club entertains Hearts, who retired defeated, 1 to 0, in the corresponding match last season. Motherwell oppose Morton, newcomer to the first division. The Greenock team has obtained only seven points in the campaign to date and is not likely to improve its

position at the expense of the Fir Parkers.

Tied with Celtic in fifth place, Falkirk has a home game against the revived Kilmarnock outfit. The Celts are not likely to make any mistake against Queen's Park in their fixture at Parkhead.

Encouraged by their 5 to 0 victory over Hibernians last week, the Dons of Aberdeen are out to make a killing against Ayr United, whipped 7 to 0 in their last league fixture by Hearts at Tynecastle Park. St. Johnstone may take the measure of Queen of the South at Muirton Park, but Arbroath will find the going more difficult against Hibernians at Easter Road.

In the remaining fixtures on the first division card, St. Mirren plays a home game against Hamilton Academicals, and Clyde goes to Cathkin Park for a match with the fast-slipping Third Lanark team.

The race in the junior division remains close, with Raith Rovers only one point ahead of Albion Rovers. The leaders have a hard battle against third-place Dumbarton, but Albion may capture maximum points from Dunfermline Athletic.

## Bowling Club Elects Officers

Lake Hill Ladies' Lawn Bowling Club held their annual meeting in the clubhouse on Wednesday with a good attendance of members.

Mrs. Milnes, the games convener, gave a comprehensive account of members in various competitions in Greater Victoria and their success in winning prizes on several occasions. Members from all of the clubs have been welcomed on the green.

Mrs. Upward, social convener, reported on successful silver teas and five hundred parties held during the winter months, and Mrs. Barrie, refreshment convener, reported on the social side of the games played during the summer. A hearty vote of thanks was tendered each convener. The secretary - treasurer's report showed a good cash balance on hand after donating a generous contribution to the building fund.

Mrs. Peddle, the retiring president, who has held the office for four years, thanked the members for their support at all times, and was herself accorded a hearty vote of thanks. Election of officers took place as follows: President, Mrs. R. W. Nunn; vice-president, Mrs. H. Milnes; secretary-treasurer, Miss Douglas (re-elected); other directors, Mrs. Peddle and Mrs. Webster; games committee, Mrs. Milnes (re-elected) and Mrs. Upward; refreshments, Mrs. L. Schmelz; social, Mrs. L. Gray; delegates to Greater Victoria Ladies' Lawn Bowling, Mesdames Nunn, Milnes, Peddle, Upward and Schmelz.

A social half-hour was spent at the close of the meeting, when the retiring board of directors were hostesses to the members.

## CENTENARIAN DIES

WINCHESTER, Ont. (CP)—Mrs. Andrew Timmins, Dundas County's only known centenarian, died here yesterday at the age of 101 after a few days' illness.

Mrs. Timmins, born near Prescott, Ont., in 1936, was the last member of the Suffell family. Her parents came to Canada from Yorkshire.

At the age of 20 she was married to Timmins, who died in 1920. They had 11 children and adopted another. Surviving are three sons and the adopted daughter.

## HUSKIES NEED GRID VICTORY

Must Whip Washington State Tomorrow to Remain in Coast Title Race

SAN FRANCISCO—Three Pacific Coast Conference football teams will fight to stay in the title race tomorrow while the unbeaten California Bears and rejuvenated Stanford Indians take it easy.

Washington's Huskies will battle Washington State College at Pullman, Wash., and in view of Oregon state's upset of the highly touted Huskies last Saturday, anything can happen. W.S.C. lost to California last week-end, 27 to 0.

University of Southern California, which upset Ohio State, 13 to 12 last Saturday, will entertain a University of Oregon team fresh from drubbing Gonzaga, 40 to 6.

The Bruins of University of California at Los Angeles, upset by Stanford, will clash at Corvallis with Oregon State, the surprise team of the conference after its victory over Washington.

Washington, Southern California and U.C.L.A. each has one defeat marring its conference re-

cord. Another probably would shatter its title hopes.

California will take on a "breather" doubleheader at Berkeley against the California Aggies and Amos Alonzo Stagg's College of the Pacific outfit. Stanford has no game scheduled, awaiting the Washington contest next Saturday.

## O'Shocker In Wrestling Win

Salt Lake Heavyweight Knocks Out Dick Raines in Bout at Vancouver

VANCOUVER—Pat O'Shocker of Salt Lake City was awarded the main event of a wrestling card here last night when he slammed Dick Raines of Texas against a ring post and knocked him out.

O'Shocker weighed 243 and Raines 235.

The fall came at the 18:12 mark in the one-fall, no-time limit bout.

Kimono Kudo, 190, Japan, was awarded his match against Danny Dusek, 215, Omaha, on a foul.

## Baseballers And A.A.U. Through

MONTREAL—Officers of the Provincial Baseball Association, which governs about 20 amateur

baseball leagues in Quebec Province, announced yesterday the organization had severed affiliation with the Amateur Athletic Union of Canada.

Immediate cause of the break, according to Secretary Ernest Comie, was the baseball association's refusal to accept an A.A.U. of C. ruling against importation of United States amateur baseball players. Next season, he said, the association would permit up to three United States "imports" for each of the 100 or more teams under its jurisdiction.

The Canadian Amateur Hockey Association, the Canadian Amateur Basketball Association and the Canadian Amateur Lacrosse Association have already broken away from the A.A.U. of C.

Toronto Correspondent Recalls Meeting Dr. S. F. Tolmie Years Ago

Travelers on their way to the Orient, tourists on autumn trips and eastern residents holidaying on Vancouver Island, are among those registered at Victoria hotels today. Despite the lateness of the season, tourists continue to arrive daily, many of them bringing their motor cars.

Mr. and Mrs. W. Hansen of Hongkong arrived at the Empress hotel today and will take passage tomorrow by Ss. Empress of Russia for China. For 30 years they have lived in Hongkong. They have traveled to England many times, but never before had they visited Canada. They traveled via Suez a number of times, crossed Siberia to Europe and also crossed the United States.

Mr. and Mrs. Hansen left Hongkong in March and went to England via Suez. When they reached Hongkong in three weeks they will have completely circled the world. They crossed the Atlantic aboard the German liner New York.

## NEWS IN BRIEF

Wild strawberries were picked by Mrs. Sarah E. Blenkinsop of Luxton in the Happy Valley yesterday.

The monthly meeting of the Victoria Music Teachers' Association will be held next Wednesday morning at the Y.W.C.A. at 10.

George Brassard and Mrs. Arthur H. Parker have been named by Ward One Saanich Liberal Association to act on the committee to the central executive.

"International Relations" is the subject chosen by A. D. Macfarlane, K.C., for his address before the Open Forum at the Chamber of Commerce, at 8, Sunday evening.

On a charge of discharging a firearm within the city limits, George Tippet, this morning pleaded guilty in the City Police Court and was remanded until next Friday.

Chancellor J. M. Macdonnell of Queens' University, Toronto, will speak over a Canadian Broadcasting Corporation hook-up this evening, according to word received this morning. His address, if broadcast on this coast, will be heard from CBB at 7.

William Hodges, 18, pleaded guilty in the City Police Court this morning to a charge of obtaining \$29 from C. M. Rose, fuel merchant, by false pretences with the use of a bogus cheque. He was remanded until tomorrow for sentence.

Samuel Sivertz, youngest son of Mr. and Mrs. Christian Sivertz, 1278 Denman Street, will arrive from Shanghai on the Japanese liner Helan Maru next week. The vessel is expected in Vancouver Monday. Mr. Sivertz has been employed for some years by the American Oriental Corporation.

Additions to the Jubilee Hospital, mainly connected with extension of facilities for the laundry and sewing room, will be undertaken immediately, according to a \$3,000 building permit issued by the city building inspector's department today. Another permit was issued for the construction of 14 booths and a reception room for hair-dressing and beauty shop purposes in the Metropolitan Hotel. The work will cost \$1,500.

## OLD HOUSES TO BE DEMOLISHED

Continuing the drive to improve the city generally through the demolition of dilapidated houses on which renovation is impossible, the city lands committee yesterday condemned a dozen structures in various districts.

A report to the council urging removal of the unsightly buildings will be presented at the next meeting.

"It is virtually impossible to improve these buildings and make them worth renting. At present they are just eyesores and of no value," Alderman R. A. C. Dewar, chairman of the committee, stated today.

## Renovating Jobs Brighten Victoria

Buildings Have "Faces Cleaned"; Stores Filling Fort Street

A sign that better times are here is the amount of building, cleaning and renovating that is going on in Victoria.

Skilled laborers have been unusually busy all summer, and with good weather continuing they are working full time to get their jobs finished before the winter sets in.

In all parts of Victoria these signs of improvement are noted.

Government House, atop the brow of Rockland Avenue, looks more baronial-like than ever, in a new coat of battleship-grey paint, with a striking red roof. This was one of the biggest painting jobs carried out in Victoria in some years.

During recent weeks many of the downtown buildings were washed, their original brightness coming to light. Several of the buildings are fitted with the latest Venetian blinds, and at night, when they are closed, the windows appear light, cheerful and modern.

## NEW BUILDINGS

Fort Street is figuring in the improvement. Several small stores are now under construction. Only one lot between Douglas and Blanshard Streets now remains vacant and there is a strong possibility this may soon be used.

Workmen are rushing a new copper roof on the Post Office, following the fire of last winter. The new annex for the Home for Aged and Infirm Women on McClure Street is pretty well finished as far as the exterior is concerned.

Currie and Gillespie, antique dealers, are carrying out extensive alterations at their store on Fort Street. A new front is being installed. It will have wide show windows on the street and an Old English exterior.

A new gasoline station is nearing completion on Broughton Street. A lovely old home on Burdett Avenue is being stuccoed.

In all residential areas of Greater Victoria new homes, small for the most part, are being constructed, older ones are being turned into apartment houses and many residences are being made snug for the winter.

This has been a great boon to painters and builders and there is every expectation among them that the work will continue indefinitely.

## FORT STREET PLAN URGED

Uniform Style Would Be Attraction, G. H. Stevens Tells Realtors

A suggestion that the section of Fort Street, between the business district and Cook Street, should be developed as far as possible in a uniform old English style, was put before the Real Estate Board at its luncheon today by G. H. Stevens.

Referring to a recent increase in construction work on the street, Mr. Stevens expressed gratification that several of the new structures were in Tudor style.

"We made a slogan some years ago about 'A little bit of old England'," he said. "It would be a great thing for Victoria and a feature with great publicity value if we carried out this idea. That style is well suited to antique shops, of which there are many on Fort Street."

He quoted Carmel and Santa Barbara as examples of cities that had benefited greatly by a uniform style of architecture, in their case Spanish.

## ROUND-TABLE TALKS

The board joined in a round-table discussion on two subjects, real estate from the investment point of view, and property management, with the president, E. F. Burton, and J. A. Bennell leading the two subjects.

The desire to own his own home has been inborn in man since his earliest days, said Mr. Burton. It still existed.

In addition, the 1929 depression had shown in many cases the advantages of owning investments in several categories, and people with money in real estate had been able to save margin holdings in other directions.

Properly placed first mortgages on houses with a value of between \$2,000 and \$5,000 were probably the safest investment existing, he said.

In Victoria larger houses were not such good investments as

## ONE YEAR FOR TRAFFIC DEATH

Edwin Loughlean Found Guilty of Criminal Negligence at Assizes

Edwin C. Loughlean was sentenced to a year at hard labor for criminal negligence in the traffic fatality which caused the death of W. G. Plowright on the Island Highway last April.

In pronouncing the sentence in the Assize Court yesterday evening Mr. Justice Denis Murphy rejected an appeal by defence counsel, Stuart Henderson, for suspended sentence.

The jury, which consisted of ten men and two women, took two-and-one-half hours to reach a verdict.

Receiving the case at 3.10 yesterday afternoon, they returned at 4.40 to ask for further instruction by the trial judge as to the difference between manslaughter and criminal negligence.

This information was given them, but one of the feminine jurors was still uncertain as to the degree between the two verdicts. Mr. Justice Murphy said that he would have to leave that to the jury to decide.

At 5.40 the jury filed back into the court and Harold F. Hewlett, foreman, declared that the accused had been found guilty of criminal negligence.

Argument in the case, which has taken three days and which is the only one to be heard at the assizes, ended yesterday morning. In the afternoon Mr. Justice Murphy gave his charge to the jury.

## Believe Dogs Got Rat Poison

Poisoning of two dogs in Oak Bay recently is believed to have been caused by strychnine originally purchased to kill rats, according to investigations by Oak Bay police and Inspector Geo. Allen of the S.P.C.A.

In investigating the poisonings police found that a resident of the municipality had purchased strychnine to kill rats, and it is believed the rodents carried the poison out of the basement where it was placed into the garden.

Inspector Allen said he had known cases where this had occurred in the city, the rats carrying food on which the poison was placed, outside, where it was accessible to dogs.

In the instance where strychnine was purchased for the rats, the owner took precautions to see the poison was placed in the basement out of the reach of dogs, police said.

Alderman W. T. Straith on Wednesday evening in Wilkinson Road United Church related the experiences of himself and his family in Shanghai during the first few days of the aerial bombing of that city. It was the occasion of the Thanksgiving supper, sponsored by the Women's Auxiliary, under the convenship of Mrs. J. Hoy. Vocal solos were rendered by Mrs. G. McIntosh, and community singing was led by Rev. W. Allan, who also presided.

cause of low rentals. He believed the city still needed 300 to 400 more apartments and houses of small and medium size.

To get the maximum return from such an investment it was essential that a part of the income be turned back into the property for renovation and modernization.

Mr. Burton briefly mentioned building loans, and made suggestions for protection of the lender.

Other members spoke of the low rents in Victoria and Vancouver compared with the east, and suggested that building for speculation rather than investment was the cause.

## PROPERTY MANAGEMENT

Mr. Bennell listed as the advantages to the owner of having a property manager for real estate the following: Better rent collections, better adjustment of rents to conditions, proper care of the structure, increase of rentals by proper additions or alterations to the building, the provision of regular financial statements, handling of employee problems and the proper fitting of legal and governmental technicalities.

Major Cuthbert Holmes contended many of the present troubles of British Columbia municipalities came from a surplus of lots through too optimistic subdivision. James Forman suggested taxation reform as a solution for real estate difficulties. H. D. Patterson presided.

## OBITUARY

## PERCY COLLINSON ABELL

In the presence of relatives and many friends, funeral services for Percy Collinson Abell, who passed away on October 12, took place yesterday afternoon. Rev. Canon F. A. P. Chadwick conducted the service, during which Mrs. S. M. Morton rendered the solo, "Some Day We'll Understand," and the congregational hymns sung were "The Sands of Time Are Sinking" and "Abide With Me." An unusually large number of beautiful flowers covered the casket. E. N. Horsey, T. J. Goodlake, A. V. Clarke, J. L. Clay, J. H. Beatty and P. B. Scurrah acted as pallbearers, and the remains were laid to rest in Royal Oak Burial Park.

## FRANK OSWALD MUMFORD

Frank Oswald Mumford, aged 27, electrical artificer, Royal Canadian Navy, Esquimalt, passed away at Tranquille Sanatorium, near Kamloops, on Monday last. The remains were forwarded on Monday night to New Westminster, where funeral services were held.

## EMILY A. E. G. D. POWELL

Rev. A. E. Whitehouse conducted the funeral services this morning over the remains of Mrs. Emily Amelia Grace Darling Powell. The hymns sung were "Peace, Perfect Peace," and "Abide With Me." Interment was in Royal Oak Burial Park, the following acting as pallbearers: R. Pettigrew, J. Benson, Rev. W. Seeley and R. G. Howell.

## NEW ACTS FOR Y.M.C.A. SHOW

More Than 300 Will Perform in Circus October 22 and 23

More than 300 performers will be seen in action at the Y.M.C.A. circus which will be held at the Horseshow Building at the Willows October 22 and 23.

Something unique in the circus line will be presented this year in the form of indoor fireworks, plans for which are now well under way. At a meeting of the circus committee yesterday evening Warren W. Martin reported general plans for the whole show were nearing a state of completion.

A headline act has been secured from Vancouver in the persons of Gita and Per, two of Canada's most outstanding acrobatic artists who have a smart repertoire of novel acts.

The Junior Y.M.C.A. members are working on a pantomime which will feature prominently in the comedy part of the programme. D. B. Carley will present a group of equestrian acts to be staged by members of the Victoria riding academy. Both the Shrine and 5th B.C. Coast Brigade bands will be in attendance.

In place of individual poses, the human statuary to be taken part in by members of the Y senior leaders corps, will be in the form of a group work in portraying several plaques, both ancient and modern.

Hon. Eric W. Hamber, Lieutenant-Governor, and Premier T. D. Pattullo have extended their patronage to the show.

F. E. Winslow Adds Endorsement to Those of Other Prominent Citizens

"Probably too much cannot be said about the Greater Victoria Community Chest which is designed to bring, through one collection, sufficient moneys to answer the needs of 23 different welfare agencies in Greater Victoria," said E. W. Winslow, chairman of the Community Chest Board, in an interview today.

"The movement for the Community Chest was commenced last year as part of the programme of the Council of Social Agencies of Greater Victoria and it is planned to have the campaign from November 1 to 8.

"The Community Chest idea is, of course, not new in this country and has proved a success elsewhere. Many of the businessmen and subscribers generally to charity organizations were anxious that they be permitted to give their charity in one sum rather than be approached many times during the year. Those who have taken upon themselves the somewhat thankless task of collecting funds also feel they would much prefer giving up their time for one campaign rather than be requested many times during the year to give up their business in an endeavor to obtain funds for the different societies.

**SURE OF SUCCESS**

"The general support given by prominent and busy citizens to the campaign thus far seems to assure it of success, but I feel that I would like to add my public endorsement, as president of the

## Voluntary Basis Is Declared Best

Chamberlain Says Britain Avoids Both Military and Business Compulsion

MANCHESTER (CP)—Prime Minister Chamberlain stated Thursday night the government's proper function in relation to industry was to create conditions under which trade and commerce could most successfully be carried on, while exercising only "so much control as may be necessary in the public interest."

Addressing the Association of British Chambers of Commerce here, the Prime Minister touched briefly on foreign affairs. "The desire to live at peace with our neighbors" was the mainspring of Great Britain's foreign policy, he said.

"It is not in the temperament of our people to bear malice," he added, "and I think we have the shortest memory for quarrels of any nation in the world."

Where Great Britain to be attacked "we should know how to defend ourselves as we always have done in the past," but "if we are striving—as we are night and day—to learn ourselves, it is not that we have sinister designs against anybody else."

"Sometimes we are credited with more than a Machiavellian degree of cunning," the Prime Minister continued, "but the simple fact is that the mainspring of our foreign policy is the desire to live at peace with our neighbors and to use our influence to induce them, if we can, to resolve difficulties by peaceful discussions and not to resort to war."

## VOLUNTARY SERVICE

Speaking of the British army and the defence forces generally, he said:

"We do not require conscription. We do not require an army of continental size. What we do want is a comparatively small, but highly efficient and highly mobile force, and to get that we look to the voluntary system."

The Prime Minister stated British industry was faced by competition from states where the whole people willingly had given up their liberty in order to secure efficiency.

Defending Britain's voluntary system of democracy against threatened inroads from such countries, he declared:

"To us, loss of that liberty would outweigh all advantages which might be gained in other ways. . . . I do not think we need to fear such a competition provided we use our liberty wisely."

Outlining the government's attitude, he said:

"We try to exercise the minimum control consistent with prevention of any abuse. He referred to the evolution of a system of adjusting wages through boards of trade, and minimum wages, as examples of this theory."

## REFUNDING NEEDED TO AVOID DEFAULT, BOND-HOLDERS TOLD

(Continued from Page 1)

## COMMITTEE APPROVES

"The members of the committee and the interests they represent have approved of the plan, and they trust that after a perusal of the facts of the situation all debentureholders will concur that it is in their best interests to complete the form attached to the circular," the letter said.

In a survey made of the city for the purposes of determining the financial condition of Victoria prior to drafting a plan, the committee sets forth several points of importance for the consideration of the bondholders.

It refers to the drop in population from 39,082 five years ago to the present 37,500 and attributes that to the high tax level in the city and the attractiveness of suburbs for residential purposes.

The physical condition of the residential property is moderately good, although a part of the city is old and shows signs of deterioration, the report states. It says the downtown retail district is developed beyond requirements, that marked contrasts are seen between the old and the new sections and remarks that apart from lumber yards, a co-operative, a paint manufactory and the electric company there are no large industries.

## CIVIC PROPERTIES FAIR

With regard to services, the report considers civic properties and works only fair. Need for sidewalk and road surface development and, in some cases, replacement, is noted. Sewers and storm drains are reported generally adequate, although some will require replacement, and the waterworks, while in a good state of repair, will probably need extension and enlargement.

On the financial side, the report notes the reduction in the total tax levy from \$1,869,000 in 1931 to \$1,687,000 in 1935. It cites reductions in government grants, and sundry revenues for

## Spaniards Destroy Thirty Rebel Planes

the same period and notes increases in debt charges and costs of unemployment relief.

## NEED TAX RELIEF

On questions of taxation, the report states the city failed to provide revenue required to meet commitments by \$609,000 in 1935 and that a similar condition existed in varying degrees for some years. It refers to the mounting tax rate, stating the practical limit has been reached, and that taxpayers require an incentive to hold their properties.

Continuing it outlines continually declining assessments, reduced tax collections, economies effected in civic administration, the mounting current deficit, and the accumulation of current liabilities in excess of current assets, requiring borrowing.

Net current liabilities are set at \$14,588,561 at the end of 1936. The report suggests the possible necessity of meeting the guarantee on Victoria Cold Storage and Terminal Warehouse Company Limited interest payments, and outlines other guarantees for which the city is responsible.

## CANNOT CONTINUE

"It is clear that the city cannot continue to meet all its commitments when it has not available additional sources of income, and when even with the increased taxation of 1936 it failed to balance its budget by \$595,000. On the other hand, the burden of taxation is such that ratepayers are continuing to find it more difficult to pay their taxes on their present basis and are allowing their properties to deteriorate and revert to the city. Accordingly, it is necessary that ratepayers be given a renewed hope for decreasing taxation and a balanced civic budget. The plan proposed and the economies in process furnish that hope and go a long way towards protecting the investor and his investment."

"The city's budget for 1937 is balanced on the basis of the proposed refunding. In this year, to date, the city has kept within its budget, and has demonstrated that under present conditions it is able to promptly meet its new obligations in full," the report concludes.

## CONSENT FORM ATTACHED

Following the statement on the survey is appended a brief of the plan itself, and the document closes with the consent form on which the bondholders are requested to indicate their willingness to accept the conversion scheme.

As secretary of the debenture holders' committee is W. F. McIlroy, Toronto. Members include W. J. Beattie, Canada Life Assurance Company; J. A. Fraser, Dominion Securities Corporation Limited; A. J. Mitchell, of A. J. Mitchell & Company Limited, and W. P. Scott, of Wood, Gundy & Company Limited, all of Toronto. E. E. Reid, of the London Life Insurance Company, London, is chairman.

## BOBBY BREEN AT DOMINION

Popular Young Singing Star Has Leading Role in "Make a Wish"

To judge by the manifest reactions of the audience at the opening performance of Bobby Breen's new musical starring vehicle, "Make a Wish," at the Dominion Theatre today, this tuneful screen play, filmed by Principal Productions for RKO Radio, has already registered a most resounding hit.

In the principal role, Bobby is altogether delightful. His songs, written for the most part by the famous Viennese composer, Oscar Straus, are melodious and beautifully sung, and his acting leaves nothing to be desired. One wonders why Basil Rathbone has for so long been condemned to a succession of villainous roles, since he emerges here as one of the most engaging romantic actors of recent years. In the leading feminine role, opposite him, definite promise of future screen greatness is seen in the performance of Marion Claire, radio star, who makes her film debut in this picture. To mention the good work of every deserving member of the large cast would be impossible, but Henry Armetta stands out in his role, as do Ralph Forbes, Leon Errol, Leonid Kinskey, Donald Meek, Herbert Rawlinson and others.

## Tauber Will Sing Straus Melodies

An entire provincial Italian town of 100 years ago was faithfully reconstructed for the Capitol Film "Land Without Music," starring Richard Tauber, which will open on Monday at the Plaza Theatre. Picturesque houses, queer shops, market stalls and the state prison, all provide spectacular backgrounds for this beautiful Oscar Straus operetta. The story depicts actual incidents that happened in Italy in 1830, and tells of a princess regent who banned music from her domain only to fall a slave to the charm of a singer.

## COLUMBIA THEATRE

With virgin forests of the northwest as its background and a feud between rival lumber companies as its theme, "God's Country and the Woman," starring George Brent, is now at the Columbia with George Brent and Beverly Roberts in the stellar roles.

## ATLAS THEATRE

Three of the principals concerned with the production of "Wee Willie Winkie," now at the Atlas Theatre, are former winners of annual awards by the Academy of Motion Picture Arts and Sciences. Shirley Temple, star of the film won a special award in 1934. Victor McLaglen won the acting award in 1935, and director John Ford won the director's award for the same picture.

## PUT PRISONERS TO WORK

VALENCIA (AP)—Four thousand Italian and German prisoners of war soon will earn their keep by building a government railway from Madrid to Cuenca.

## GOVERNOR REFUGEE

LORIENT, France (AP)—The governor of the Spanish province of Asturias was among a shipload of refugees which arrived here today. The refugees had fled from the insurgent army advancing on Gijon, Asturian port on the Bay of Biscay.

The governor's flight was interpreted in political circles as meaning the Valencia forces had abandoned all hope of saving the last territory of the Republican government in northwest Spain.

These circles felt that the surrender of Gijon might be imminent.

Also among the 50 passengers who embarked at Aviles, near Gijon, were the president of the Asturian Court of Appeals, and other men prominent in the government administration of Asturias.

## Peaceful Embargo Of Japan Urged

U.S. Residents in Chinese Province Ask Material Support Be Withdrawn

NANKING (AP)—Nelson Johnson, United States ambassador, today forwarded to the State Department at Washington a copy of the protest of the American community of Szechwan province against Japanese aggression in China.

The protest urges the United States to use every peaceful means to withdraw moral and material support from Japan. It declares United States scrap iron becomes Japanese bombs which kill civilians, United States cotton makes Japanese explosives, United States trucks transport Japanese troops and United States oil drives Japanese planes and tanks.

"Let no specious neutrality repeat our world war profiteering," the protest said.

## Wheat Firmer On Winnipeg Market

NEW YORK (AP)—Railroad obligations flattened before a heavy burst of liquidation today as bond market fell.

Trade was active early in the session but operations thinned in

from fractions to around 5 points. The rest of the domestic corporate list was under pressure as share prices whirled up and down, but the majority of losses were held within a point.

In the last half when prices reacted from top levels of 2% to 2 1/2 cents advanced with weakness in stock markets exerting an influence.

Southern houses again liquidated figures at the start of the session and also near the close while other southern interests offered good support around 13 1/2 cents. Export business in Canadian wheat was not more than 250,000 bushels.

It was estimated about 1,000,000 bushels of United States hard winters had been worked over night, giving strength to Chicago.

## Adventures in Tibet

IV—PARTING OF THE CARAVAN  
The high plains of Tibet supply grass for several kinds of wild animals. One day Rawling and Hargreaves came near a herd of wild donkeys. They looked with interest upon the beasts which, when tame, perform much of the transport work in central Asia and elsewhere.

The wolf fought against the dog

Hungry wolves had been following the caravan, waiting their chance to steal sheep. The camp dog caught sight of a large grey wolf, and ran to attack it. The wolf fought against the dog, but did not hurt it much before the men were able to come to the rescue.

While passing over a great plain three and a half miles above sea level the party discovered a number of lakes. Some of these lakes contained salt water. One of them covered an area of about 50 square miles, and on its shore Hargreaves and most of the porters made a camp. Later he was to meet Rawling at a spot many miles away.

Leaving the rest by the shore of the lake, Rawling and two of the natives mounted ponies and traveled southward. Before long, they found a lake almost twice as large as the one beside which Hargreaves was camping. Yaks, antelopes and wolves roamed about the land around the lake. One night wolves came so close to the ponies that they broke away from where they had been tied. The next day was spent in searching for them, and all were found.

Another adventure of the ponies came when the party followed the tracks of a wild yak. Men and ponies went up a mountain side, and reached a narrow ledge. Two ponies slipped over the side of the cliff, and rolled down to a place 200 feet below. No one had been riding them at the time they fell.

Making their way to the ponies by a roundabout path, the men found them bruised but with no bones broken. The search for the wild yak was given up, but an antelope was seen and shot for food.

The journey toward the place they were to meet Hargreaves was a hard one. For some days the little party passed across land which had no grass on which the ponies could graze. High mountains barred the way in one place, and they climbed to a height of 20,000 feet above sealevel before they found a pass.

At last Rawling came to a point within a few miles of the place where Hargreaves and the rest of the caravan had promised to meet him. He gazed across the plain, but to his dismay he could see no sign of men or beasts.

Finances Play an Important Part

CAN ANYTHING BE DONE to make marriage less of a gamble than it is now? Can the exercise of any forethought or prudence rob it of its risks and make it more of a sure thing?

This is the question that was bandied back and forth across a dinner table the other night, and in discussing it a woman said: "I think that no other one thing would do more to promote the success of marriage than, for every woman to be financially independent of her husband, to some extent, at least. The financial question is just as potent a source of discord in the home as it is in politics, and it causes more family fights and sours more husbands and wives on matrimony than all other causes combined."

"Of course, the enamoured bridegroom swears at the altar to endow his credulous bride with all his worldly goods, but he does it with his tongue in his cheek and knows his oath for the perjury it is. It isn't long before the wife finds out that if she owns her husband's pocketbook he still totes it, and that she has to be a sleight-of-hand performer to get a nickel out of it. It is like the diamond ring your Aunt Maria gives you, but that she wears until she dies 40 years later.

"There are plenty of wives who live in grand houses, ride in expensive cars and have fine clothes because that is the way their husbands advertise their prosperity. But they never have a nickel of their own to do with as they please. They have to filch from the grocery money to get a dollar to give to their poor old sick mothers and dread the first of the month when the bills come in as they do the Judgment Day. There are thousands of other wives who are nothing but domestic slaves who do the work of six servants, yet who never see the color of the money they earn by their labor.

"For all of these women to have a little money of their own so that they would not have to go to their husbands like beggars for every cent would turn marriage from a purgatory to a seventh heaven. It would stop the endless friction over what did you do with that quarter I gave you week before last, and keep wives from brooding over-thoughts of Reno.

"Understand, I'm not blaming men. They are human, and they have the desire that we all have to spend our hard-earned money on ourselves and our own pleasures instead of buying water waves and French confections for somebody else. Also, they have the human impulse that we have to look down upon those who are dependent upon us.

"So I say that if every woman was financially independent of her husband, or even if she only had a few dollars a month income of her own, she would be happier. Her husband would treat her with more respect and consideration, and the chief source of the daily breakfast table spat would be eliminated. The great hazard in matrimony is a matter of money."

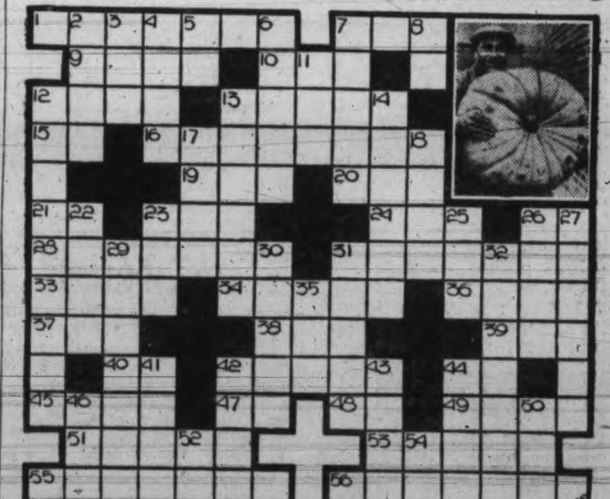

"I think," said another woman, "that the indigestion in the wedding cake is caused by relatives on both sides of the house being stirred in it. Remove the in-laws and a young couple have at least a sporting chance of making a go of their marriage. But with their mothers refereeing all of their fights, John's mother telling him to stand up for his rights, and Mary's mother standing on the sidelines cheering for her son and bidding her not to be a doormat, and both mothers poor-dearing their offspring and pointing out to them all of the major and minor defects of the poor creatures they have married, they are too heavily handicapped ever to win out.

"It is the meddling of other people that breaks up homes. Of course, every young couple has to fight their way to an adjustment with each other, but left to themselves their quarrels would end in the bride crying on the second button of her husband's waistcoat and his calling himself a brute and a turtle-dove reconciliation, instead of the divorce court."

"I tell you," said a man, "the only sure-fire way of preventing people from breaking up their homes is to make them so comfortable they don't want to break them up. The secret of this is for the wife to be a good cook and manager. Beauty fades and wisecrackers dull, but the woman who can cook brews a conjure with her pots and pans that will hold a man to the end."

## Rector Objects To Confetti

BOCKING, Essex (CP)—In future it's going to cost money to throw confetti at weddings in the parish of Bocking.

Writing in his parish magazine, the dean and rector, Very Rev. Edgar Rogers, declared:

"A senseless and untidy custom has sprung up of throwing confetti at weddings. It hasn't any meaning or artistic merit.

"It is simply silly horseplay and the mess it makes of a churchyard is a standing evidence of want of thought and selfishness.

"In future before a wedding a deposit of five shillings must be paid. If no confetti is thrown in the churchyard the deposit will be returned. If confetti is thrown, then so much of the deposit will be used as will pay for the tidying of the churchyard."

## Ss. Lackenby Is Now in Drydock

ST. JOHN'S, Nfld. (CP)—The British freighter Lackenby ended her journey from Bell Island today and went into St. John's drydock for repairs.

The 5,000-ton freighter ran aground on the tip of Bell Island, centre of the conception Bay ore mining district, more than two weeks ago. She was towed off by the Halifax salvage tug Foundation Franklin.

# Master and Crew of Bessie Mac Fined

Canadian Purse Seiner  
Seized While Allegedly  
Fishing in U.S. Waters

PORT ANGELES, Wash. (AP)—Capt. Jack Hepburn of the Canadian purse seine boat Bessie Mac today was fined \$100, and six members of his crew were assessed \$75 each after conviction on a charge of illegal fishing in United States waters.

The case was tried by Justice of the Peace Fred Fillion. It arose from seaplane observation of the Bessie Mac's activities and subsequent capture of the seiner off Cape Rock August 31.

Counsel for British Columbia Fisheries, defending the case, filed notice of appeal to United States Superior Court.

Defence Counsel Claude Wakefield contended the Bessie Mac was on the high seas under protection of her Canadian flag when arrested was made. The prosecution contended Washington State Fisheries Inspector Edward Benn spotted the Bessie Mac hauling seine within Washington State waters.

The Bessie Mac has been confiscated by the State Fisheries Department.

The speed of a coastguard seaplane, traveling 90 knots for 28 seconds from Cape Rock seaward, was the way the U.S. government determined whether the Bessie Mac was fishing in Washington State water, Lieut. K. P. Maley testified.

Speed of the seaplane determined, within the margin of a small possible error, the vessel was 2.1 miles from the nearest Washington shoreline point, or three-quarters of a mile from Cape Rock, a small United States island two and a half miles north of the Quillayute River mouth, Maley said.

## Cholera Suspects On Empress Liner

HONOLULU (AP)—Believed to be possible carriers of cholera, 16 Japanese third-class passengers were removed yesterday from the steamship Empress of Japan and placed under observation and quarantine on Sand Island in Honolulu Harbor.

The 16 boarded the vessel from Hiroshima, where the disease was reported recently.

United States health officers said they would be released to duty if bacteriological tests were satisfactory.

## Capt. G. L. Dixon Dies in East

Was Supervisor of Nautical  
Services in Transport De-  
partment at Ottawa

OTTAWA (CP)—Capt. Lance- lot G. Dixon, 64, well known in marine circles throughout Canada, and supervisor of nautical services, transport department, died in a hospital here today after a brief illness.

Native of England, he entered the marine service in 1889 and served as apprentice with the Mersey Line and was granted his master's certificate in 1898. For some time previous to coming to Canada in 1912 he served as master of a number of ships in the Far East and Australian trade.

In 1917 he was appointed a lieutenant in the Royal Canadian Naval Volunteer Reserve, with duties as naval transport officer at Quebec and later at Ottawa, routing ships and convoys during the submarine menace. An authority on many branches of marine matters he conducted many investigations for the department.

R. K. Smith, director of marine services, transport department, said Capt. Dixon's whole career had been one of service and self-sacrifice.

## CREWS HAVE WHALE OF TIME

Men of Halifax Whaling  
Fleet Celebrate After Long  
Arctic Cruise

HALIFAX (CP)—Residents of Halifax looked reminiscently over the harbor at the mother ship New Sevilla and her brood of seven whales today, and admitted they had underestimated the robustness of whaling crews. A city that thought it knew all about the ways of seafaring men decided it was wrong.

Not that the 300 whalers who came ashore last night were really bad; it was just that they simply had to celebrate pay night and their first excursion ashore after more than four months of ship-life in Arctic waters. They did.

Fifteen of the 300 ended up in jail and most Halifax folk were of the opinion the police had been amazingly goodnatured at that. Two whalers were in hospital today, and that also, wasn't such a bad record.

Of course it was all in fun. Even when two whalers tangled in a second-story life and crashed through a window to the street 20 feet below, it was still in fun. One went to hospital, the others disappeared quickly in the crowd.

One invader was found clinging somewhat dazedly to the piling of a wharf after he had taken an impromptu ducking because he hadn't stopped when the wharf did; another leaned against—and through—a plate-glass window on Halifax's main thoroughfare.

A group of visitors joyfully engaged police in a pitched battle following a raid on what was claimed to be a speakeasy; other groups contented themselves with attempts to wreck all available restaurants.

Haligonians are wondering whether the whalers are getting shore leave again tonight.

## Around the Docks

Battered by Heavy Seas, Hull of Ss. Nereus Breaks in Two at Cape Beale—Empress of Japan expected Here Tuesday—Russia Out Tomorrow—Ms. Eli on Berth.

Subjected to a severe battering by seas, the steel hull of the Greek freighter Nereus, which drove ashore in defence fog August 8 last at Cape Beale, west coast of Vancouver Island, yesterday morning broke in two.

Word to this effect was received here by M. L. Greene of Capital Iron and Metals Limited, which firm purchased the wreck and for some weeks has been engaged in removing all that was salvageable on the ship. The local junk company has had the power boat Allengarth standing by and a wrecking crew aboard and the stripping of the wreck will continue as soon as the weather is favorable, it was stated today.

A strong southeaster kicked up a heavy sea off the west coast, it was reported from Estevan Point this morning.

# Cutter Speeding to Aid of Leaking Ship

Ss. Phyllis Soto, Which Sent  
Out SOS, Heading For  
Honolulu at Three Knots

HONOLULU (AP)—Apparently out of immediate danger, the steamship Phyllis Soto early today reported she was wallowing toward Honolulu at a speed of three knots.

The United States coastguard cutter Taney was steaming under forced draft toward the ship, which Thursday flashed an SOS.

The Globe Wireless intercepted a message from the freighter shortly before last midnight (2:30 a.m., P.S.T.) giving her position as north of Midway Island and approximately 1,000 miles northwest of Honolulu. No mention was made of a leak which had flooded the No. 1 hold and prompted the captain to send out a call for help.

Coastguard officers said the Taney, traveling at 18 knots, would reach the distressed freighter in two and a half days. Carrying a crew of about 25 men, the Phyllis Soto was formerly the Nelson Line inter-coastal freighter Chetopa. The vessel is of 1,880 net tons, 324 feet long and was built in 1919 at Newark, N.J.

The carrier left Grays Harbor, Wash., for Shanghai, August 5, and was sold recently by P. S. Soto of Los Angeles to a Chinese buyer.

## SEAL HERD IS ON INCREASE

WASHINGTON (AP)—U.S. Fisheries Bureau reported yesterday that the herd of fur seals in Alaska totaled 1,839,110 animals on August 10, an increase of 8.8 per cent in a year. The herd, which contained only 1,300,000 animals in 1910, "is rapidly reaching a state of complete restoration," the bureau said.

## Two Trainmen Killed Today

KLAMATH FALLS, Ore. (AP)—Two men were killed and another injured today when a southbound Southern Pacific passenger train crashed into their car at a midtown grade crossing and carried it against the steel side of a railroad bridge.

The dead: Vale Phillips, 28, driver of the car, and Dale Beck, 47. Injured: Fred Noland, 41. Three lived here.

## Woman Flier Is Again Grounded

CAMOOEWAL, Queensland (CP)—Batten, New Zealand woman flier, made a forced landing here today when a sudden dust storm made flying unsafe. She is on her way to Port Darwin on the north coast to begin a solo flight to England.

Yesterday she was forced down at Winston, Queensland, after leaving Sydney Wednesday. She left Winston at 6 a.m.

## THE WEATHER

**VICTORIA** 5 a.m.—A storm, developing off Queen Charlotte Islands, has caused some light rain on the coast, but in the British Columbia interior the weather remains fair and mild. Temperature has moderated to 60 on the prairie.

# He Suffered Agony in Wet Weather

Rheumatism Attacked  
Limbs and Body

He had been bothered with rheumatism for years. The pain in wet weather—to use his own expression—was "indescribable." But all that is gone now—thanks to Kruschen. Read this letter:

"I suffered with rheumatism for years. I dreaded wet weather, for during such periods the pain was continuous and indescribable. To begin with, it was confined to my
